With some ground clearance and cutting back, restoring the gardens to their former glory will significantly enhance the new owners enjoyment.

The property benefits from two gated entrances, one to the front with red brick flanked entrance way, which opens to a driveway leading through the centre of the garden and opening up to a tarmac forecourt area, which continues around the side, with a further gated access. The rear of the property is also hardstanding, although consumed by nature currently. There are brick built outhouses and a detached garage, which is accessed from the side.
