The Old Cow Shed

This is the largest of the buildings being over 90ft long with stone walls and has incredible potential for conversion subject to planning. Alternatively a building of this size would make an excellent workshop etc. Please refer to the floor plan for size and layout.

The Old Cottage

Another excellent outbuilding of stone construction, retaining an original fireplace from days gone by, being used now as a music studio but with excellent potential again for conversion subject to planning.

Stone Garage & Tool Shed

There are various garden areas with established shrubs and flower borders, including a wildlife pond with spring fed waterfall and a south facing vegetable garden with greenhouse, fruit tress, and is all nicely sheltered. A lovely woodland path leads down to an area of ancient woodland and a large wildlife meadow with variety of trees (planted in 2004), enjoying a pretty riverside boundary. This entire area is very peaceful, secluded and tranquil, with lots of birdlife and has in part been designated as a site of special scientific interest.
