Again of good size and easily accommodating a central table as well as a breakfast bar. a side space / courtyard ideal for drying clothes out of the way. The other offers access is to a family / garden room. A relaxed space where the current vendor spends time in the morning eating breakfast looking out to the garden through double French style doors. The combined spaces work very well but could be made into one open plan Kitchen living space that is so in high demand these days. Subject of course to building regulations. Alternatively with the large garden an extension with lantern style roof lights pouring light into the space could be another option, subject to planning being agreed.

To the front and side of the property on the ground floor are three rooms currently used as bedrooms and a very nicely appointed central bathroom. The main bedroom downstairs has copious storage with a modern grey finish to the built in wardrobes and drawer units, two windows allow light into this room from the front. A further good sized double bedroom looks out to the same aspect with built in wardrobes again a feature. Another bedroom set down the side of the property is currently set up as a single but could take a double bed or

alternatively be used as a study quietly located to the edge of the home. The bathroom on this floor has been greatly modernised with a vanity storage style sink under a large wall mirror, a kidney shaped bath with shower above and screen.

Upstairs from the internal lobby area via a set of dog leg stairs to a central landing are two main areas. Firstly what would be considered the principle bedroom of the property, almost square in its shape with plenty of light pouring in from the rear looking out over the garden. Banks of built in storage are supplied in this room that dwarfs a double bed. Centrally is a shower room giving a secondary option to this family home and further on the landing is a connected double room. The first part is mostly made up with storage and wardrobe spaces with a secret study space built in. To the back of this room is another double bedroom with built in wardrobe space and access to the eves storage that wraps around this area. I am sure you will look at the floorplan and take joy in considering the use of this space for your needs.

Externally the rear garden is fabulous in our opinion. A large private space is set out into different areas and has been a joyous place for the current owner and extended family. A large patio immediately connects the house for entertaining with access to the kitchen via the garden room and dining room through the patio doors. A beautiful mature weeping willow tree partially divides the garden and the vendors have installed a further raised deck to enjoy it to its full. A great position to take in the pretty home and rest of the garden. Further into the garden via a lovely lawn is the fenced off heated swimming pool and patio. This has had fantastic use from the vendors and extended family and friends and been great for entertaining on sunny days throughout the year. A pool house sets off this area. To the rear of the pool is an areas with outbuildings and workshops that were the location of original stables. Over the rear fence are stunning views of countryside. The vendor has informed us that if the large garden is too much for a new owner they know that one of the neighbours has shown interest in buying the rear of the garden including the pool area in

the past and may still hold this interest.

To the front of the house is a large circular lawn with an in / out gravel drive. Ideal for ease of usage and leads to two separate garages, one connected to the property to left as you look at it and another to the right which is detached and accessed from the rear also from the side laundry area. Again the connected garage offers obvious potential to extend into.

We cannot wait to show you round this wonderful home and look forward to doing so.
