One of the major benefits of this home is its great flexibility. The detached triple garage gives this in spades and has fantastic kerb appeal in its own right. A triple garage which is open internally with three electric up and over doors makes it both easy to use and spacious for all manor of uses including potential conversion. Two doors lead out of this space and a central window to the rear offers light, One door leads to the side garden and the other to a stair case and external door that lead to the first floor. Above the garage is a very large space replicating that below that is split into a wide living space and two further rooms, one being a fully fitted bathroom and the other a store but big enough to become a good sized kitchen with services for gas and water, currently capped off. To the rear and side of the house is a split level walkway and raised patio that partially uses the banking into the woodland to give dining options to make the most of the environment. This in turn leads to a walkway that steps up the bank leading into the woodland part of the garden with areas along the way to stop and sit, barbeque and socialise. All with differing views of the house and area. This culminates in a woodland garden that is fenced off from the extended woods beyond that has so much potential to become a great space to take in the nature around you.
