Attached Modern Home

Built by the vendor to provide a home for his daughter this home offers nothing but great design and functionality. A large entrance hallway offers access to a large kitchen diner looking out over the social connected patio and expansive garden. A wonderful sized sitting room with feature fireplace sits to the front of the house and gives access to a room currently used as a play room but could be used as a bedroom for those looking for single storey living. It has been designed to be so and offers a great shower room for this purpose.

Upstairs off a central staircase the house offers four bedrooms, one of which is being used as a second lounge presently. The main bedroom offers a walk in wardrobe and ensuite bathroom. A separate double shower room more

than looks after the other bedrooms.

Al though this is the addition to the main house this could be considered the larger of the two and could be used as the main house.

Gardens

The rear gardens are accessed by a five bar gate that runs down the side of the main house. A gravel drive runs down the edge of the garden to beautiful Oak framed car port for three cars to the rear of the plot with storage above. This has options to be developed as well as the detached double garage as you enter the garden area that already has a loft room above it so would be relatively easy to develop and get agreement to do so.

A large social patio attached to the house is offered, ideal for parties and connections with friends and family. A large main lawn with feature trees makes up the majority of the garden space that is private.

To the front is a small garden that runs off the main houses French doors from the kitchen diner with small patio looking out to fields opposite.
