WHY BUY NEW? New homes are built to the very latest Building Regulations, making them more energy efficient with modern heating systems and higher levels of insulation. Homes built today can be up to 50% more efficient than a property built in the early 1980s. Less maintenance, being brand new, your home will not need modernising or re-decorating for some time. The doors and windows will only require cleaning as maintenance. First use, everything is clean, unused and new! No greasy kitchen units, no tobacco smells or damaged fixtures and fittings. You do not have to live with the previous occupant's taste or DIY disasters. Simplified buying process, end of chain, flexibility with new build. Warranty, insurance providing reassurance and peace of mind for ten years.
