We are pleased to offer this good sized ground floor studio to the market. The rent includes full central heating and hot water (estimated as being £150 a month). The property has recently had some refurbishment works, and benefits from a new bathroom and carpets. It consists of a good size open plan living area with built in wardrobes, hallway, bathroom, and kitchen. There is the benefit of off road parking in a communal parking area. Sorry we are unable to accept pets.
