

# Well-being.

Reassured  
Supported  
Empowered

BRAMSHOTT  
— PLACE —

*Inspired* in Hampshire

Just imagine the  
support you need,  
in your own home.

# You don't want to give up your independence. And you don't need to.

Bramshott Place is a place where age matters less, where you can enjoy an engaged and active lifestyle. We all want to remain independent and we want to support our residents to do just that. The village environment actively helps to encourage well-being, through the social activities, clubhouse facilities, wellness centre and the accessibility and ease of each home.

## **The village team**

The village team are on hand, as and when you may need some advice or support. Their role is to get to know residents, to bring together their circle of support. They encourage social activity and help residents get out and about, to enable them to retain their independence for as long as possible.

Everyone is different and their preferences and needs are different too, and in time, many of us will require additional personal care and support to help us maintain a good standard of life. Bramshott Place, together with the village team aims to provide a 'flexible care environment' that provides just the right amount of help and support you need; for now and in the future.

TAILOR-MADE SURROUNDINGS

Just imagine a home with  
your needs in mind...

Everything here is designed to meet the changing needs of older people, with care available and luxurious properties that can be discreetly fitted with the latest technology to support your well-being.

Whether it's the support services or the carefully designed homes and wellness club facilities, they're all combined to create a made-to-measure environment to help our residents live independently.

TAILORED TO YOU

## Just imagine; your well-being as unique as you are...

At Bramshott Place care is available, from day-to-day domestic help through to help with personal care\*. But despite the flexibility of our approach, two things remain unmoved: choice and control. Firmly fixed in the hands of you and your family.

Your well-being needs can be customised, always bespoke to you and changeable. The purpose is simple: to provide the most suitable support that will improve your health and independence, whilst offering reassurance to you and your loved ones.

\*Personal care, if required, is available through a local registered domiciliary care provider. Separate charges apply.

## CARE & SUPPORT TECHNOLOGY

# Just imagine the reassurance...

You might never notice or need it, but behind the stylish surroundings at Bramshott Place is the invisible reassurance of our assistive care and support technology.

Each apartment can be customised to incorporate the latest systems that provide real-time, 24-hour monitoring and audio communication.
