DESCRIPTION AND SITUATION

The term "unique" is often misused in property sales but in the case of this particular home it certainly applies in its true sense !

This is a rather special property that has been skilfully extended and re planned internally creating a layout that is highly unusual but very practical.

The property provides larger than average living accommodation with two separate reception rooms. The kitchen is beautifully appointed with stylish modern fittings. A conservatory has been built onto the rear to create further additional room space and there is a beautifully refurbished bathroom/W.C on the ground floor as well.

This impressive ground floor specification is equally matched at first floor level where there are two double bedrooms plus a modern en-suite bathroom/W.C. There is a further double bedroom on the second floor.

There are very small, virtually maintenance free gardens to this home which will appeal to those with a busy lifestyle although it should be noted that the conservatory has been constructed in a manner that would allow the sides to be removed to create paved external space covered by a glazed pergola if preferred.

The property is situated within a popular, established, residential location. It gains easy access to local schools and the town centre with all of its facilities.

An internal inspection is absolutely imperative to fully appreciate the quality and true appeal of a truly individually home.
