A surprisingly spacious Victorian three bedroom semi detached house with an exceptionally large rear garden. OFFERED FOR SALE WITH NO CHAIN

What cannot be appreciated from the road is the fact that this property enjoys generous rear gardens of approximately 0.12 of an acre and a length of at least 41m (134ft). The rear boundary backs onto local playing fields and the property, along with its neighbours, enjoys vehicle access over a service track. Currently, there is a single garage, although this is in need of some repair, but nevertheless offers fantastic potential for off-road parking. There is potential for further off-road parking and is therefore ideal for those with campervans, motorhomes, etc.

This family-sized property benefits from gas fired central heating and double glazed windows. The accommodation comprises an entrance porch, lounge, sitting/dining room and fitted kitchen to the ground floor. There is also a rear lobby giving access to a family bathroom and separate W/C facilities. To the first floor, the landing provides access to three well proportioned double bedrooms.

Situated on Moorbridge Lane, a popular residential street on the outskirts of Stapleford, being close to open space and countryside, yet conveniently situated within easy reach of the town centre itself, local junior school, regular bus service on Pasture Road and good local road networks to the larger nearby town of Beeston, the city centres of Nottingham and Derby, and Junction 25 of the M1 motorway.

The large rear garden is currently landscaped with lawn, large patio and paved areas, bedding and various garden outbuildings.

The garden, as well as the property, offers fantastic long-term potential for expanding families. Viewing is recommended.

## OUTSIDE

The property is set back from the road with a walled-in front garden and pedestrian gate leading to front door. There is gated access at the side of the house leading to the large rear garden which has a length of approximately 34ft (41sqm). The garden comprises a yard and paved patio area beyond the rear elevation. This then expands into a larger paved patio area and hard standing with garden outbuildings, including a summerhouse and galvanised steel shed/workshop. A pathway leads to a section of garden laid to lawn and deep set bedding. The path then continues along to the rear boundary. At the foot of the plot there is a sectional concrete garage (in need of repair) which has vehicle access off a gated service track.
