A FOUR DOUBLE BEDROOM DETACHED FAMILY HOME SITUATED IN THE HEART OF BREASTON.

It indeed gives Robert Ellis with immense pleasure to be instructed to place this individual property on to the market which is situated in one of the prime residential areas between Nottingham and Derby in the Poplar Avenue area of Breaston. It is very rare that a property becomes available for sale in this area and we are therefore very pleased to be able to offer this four double bedroom detached property which provides spacious accommodation which is arranged on two levels on what is a plot which extends to approximately 1/3 of an acre in size. For the extent and the quality of the accommodation to be appreciated we therefore strongly recommend that all interested parties do make a full inspection whereupon they will see all that is included for themselves.

The property was significantly altered and extended by the current owners and so provides ideal family accommodation. Being double glazing and benefiting from gas central heating the spacious accommodation includes a large reception hall which in turn leads into the main lounge/sitting room which overlooks the front garden, dining room, breakfast room, fully fitted and equipped re-fitted kitchen which in turn leads onto the large conservatory which connects the property to the main garden area at the rear. On the ground floor there is also a master bedroom suite which has its own shower and dressing room en-suite, a further bathroom, utility/laundry room and a further ground floor w.c. To the first floor there are three double bedrooms, one of which has its own large shower room en-suite and then the main bathroom which since being originally included in the property has hardly been used. Outside there is a very large detached brick garage positioned at the rear of the property which as well as garaging for at least two vehicles provides extremely good external storage in its roof space as well as the main garage area. The gardens are lawned at the front with there being a block paved drive and car standing area which leads down the right hand side of the property to the garage. To the left hand side the block paving continues and provides a wide path which also leads to the gardens at the rear. The rear gardens are extremely large with there being a private patio area to the immediate rear of the property which in turn leads onto the lawned garden which has beds and natural screening to the sides and is not overlooked from any of the adjoining properties.

Hawthorne Avenue is a very private cul-de-sac situated in the heart of the Poplar Avenue area of Breaston and is therefore very well positioned to provide easy access to the amenities and facilities found in Breaston village as well as all those provided by Long Eaton which is literally only a few minutes driving distance away. These include the Asda and Tesco superstores and numerous other retail outlets, schools for all ages including the Trent College and The Elms independent schools, health care and sports facilities including the West Park Leisure Centre and several local golf courses, walks in the surrounding picturesque countryside and excellent transport links including J25 of the M1, the Long Eaton and East Midlands Parkway Stations and the A52 and other main roads which provide easy access to both Nottingham and Derby.
