The property is well placed for easy access to all the local amenities provided by Long Eaton and the surrounding area including direct access from Parkside Avenue to West Park with its leisure centre and also has excellent transport links which have all helped to make this a very popular and convenient place to live.

The property is constructed of brick to the external elevations under a pitched tiled roof and contains many interesting and unique features. There is then a glass panelled oak door leading into the new double height "danish styled" room which was added around 2006. Its main features are a chapel style window and a large double glazed sliding door which disappears into the wall with both windows having special fitted blinds and this end of the room is a splendid area from which to sit and view the garden. At the opposite end an open tread purpose made oak staircase leads to the mezzanine floor which overlooks the whole room and could be used as a study or reading area.

The stairs from the inner hallway lead to a landing with two double bedrooms one with a walk-in wardrobe and a bathroom with a bath, separate shower with a mains flow shower system, bidet and airing cupboard. Outside there is a brick driveway at the front of the adjoining brick garage, and a path with gate leading down the right hand side to the front door and continuing down the right side of the cottage where there is a storage area which has two wooden sheds. The pathway extends round the rear of the cottage to the main gardens that extend down the left hand side and these comprise a number of lawns with established hedging, bushes and various plants and at the far end of the garden a vegetable patch. There is also a greenhouse which will remain at the property when it is sold.
