NEW* This is a rare investment opportunity to acquire a block of 8 single garages in the popular residential location of Napier Street/Prince Street. Parking can be at a premium, particularly with most households owning more than one vehicle. This group of 8 garages could be leased on an individual basis to local homeowners, either as general storage or for secure parking of their car/motorbike. Subject to the necessary legal process and after your initial purchase has completed, this group of 8 garages could be divided and sold on individually.
