GRADE II LISTING :

SYCAMORE FARMHOUSE: Sycamore cottage was a small C19 estate farmhouse, which appears from the evidence of the Tithe Survey to have been newly established in c.1838; its land was then recorded as a smallholding in the estate of Sir Edward Kynaston bart, tenanted by Thomas Pritchard. It is remembered later as part of a smallholding based on five small caeau (probably unchanged from those in the Tithe Survey) in the Wynnstay estate. The house is still complete with its associated agricultural range and earth closet. A two-storey two window symmetrical cottage in local light red brickwork at front and at left, but in local quasi-rubble stonework at right and at rear, apart from quoins formed of brickwork. Large chimney at left with slated shoulders; the topmost courses of the stack have been rebuilt in Ruabon or similar bricks. Two lean-to secondary additions at right, in stonework with brick quoins. Slate roof. Boarded doors, small-pane timber windows. In the left unit there is a large hearth incorporating a hob wall with a very small (restored) cottage range. Above the hearth the soffit is formed of metal plates. In the central partition there is a boarded door with a Norfolk latch. In the right unit is a pine staircase with boarded soffit and side partition. To the right of this a partition separates the present kitchen, including a door with ventilation bars above. An exceptionally well preserved smallholding farmhouse with associated outbuildings.

OUTBUILDING AT SYCAMORE COTTAGE: Probably C19 and contemporary with Sycamore Cottage; the roof is supported on typical C19 king post trusses. A three-bay range at right-angles to Sycamore cottage and facing south to the cottage, with a pigsty at the east end. The three-bay range and the pigsty are both in uncoursed quasi-rubble stone with brick dressings and with slate roofs. Heck door to the left bay, ordinary boarded door to the middle bay, heck door the right bay. Small windows in the west gable end and in the rear wall. The left and right bays have stone pitched flooring and are for livestock; the left bay has marks of a former division into two stalls and the right bay has a sunken drain for excrement. The middle bay has a quarry tile paving and was for dairy or related purposes. The pigsty has a rough stone floor in the roofed part but the floor of its yard has been concreted over. A compact smallholder's outbuilding range for livestock shelter and dairy purposes, listed also for group value with Sycamore Cottage.
