Pant Golau House

Llanbedr | Merionethshire | LL45 2HS

Are you feeling groovy - you will be once you have viewed this spacious quirky and totally unique detached 1970 style house in an idyllic location which will not fail to impress.

Pant Golau House is a large 3/4 bedroom detached property with gardens, garage, parking and lovely views situated in the sought after hamlet of Pensarn between Harlech and Llanbedr. Recently refurbished and updated by the current owner this unique property successfully blends the best of 1970's design and decor with all the modern conveniences expected for modern living. It is bright and bold and utterly charming.

Occupying a prominent position in the hamlet, it is currently used as a private and commercial holiday home but it would equally make a stylish family forever home. The house is "upside down" to take advantage of the lovely views over fields to the coastal dunes and River Artro estuary. With large windows facing the sea, the first floor open plan lounge/diner and breakfast kitchen are flooded with light. There are three bedrooms and the family bathroom on the first floor. On the ground floor there is a second large sitting room/ fourth bedroom with patio doors opening to the patio and garden beyond. This room is full of potential and would also lend itself to a gym, home office or hobby/play room. The addition of a stylish shower room and WC to the ground floor presents a number of opportunities including the creation of an annex with the potential to expand into the integral garage.

The addition of a balcony off the kitchen is a lovely feature with a backdrop of trees and lovely rural views towards the coast.

We recommend booking an appointment to view at the earliest opportunity to really appreciate all that this special house has to offer.

Owner's Thoughts

It's hard not to fall in love with Pant Golau House, with its combination of rich biodiversity, views towards the sea and abundance of space both in the house and garden. It also has a unique 1970's heritage feel, and the interior decoration I carried out after my purchase celebrates this. I was also aware however of its enormous potential. As a large property in Snowdonia National park without any conservation restrictions on a perfect site, it had the opportunity to become a grand design/eco home in a very cost effective way. The work I carried out reflected this ambition. The new central heating system is predesigned to attach an air source heat pump, I was going to put in a huge double height kitchen dinner on the ground floor and render or add architecturally designed cladding to the house. And of course, the garden has so much potential! Sadly, current economic conditions mean that's no longer possible for me, but I will always have fantastic memories of the house and super friendly village.

Additional Information

The property is connected to mains electricity and water. Drainage is private to septic tank. Heating is by a recently installed propane central heating system and the property is double glazed.

It is Council Tax Band E.
