**DESCRIPTION**

The land comprises of a single parcel of productive grassland, with a total area of approximately 9.40 acres (3.80 ha). It was re-seeded in Spring 2025 and is suitable for both grazing and mowing.

The boundary comprises mature hedgerows and stock proof fencing. There are a number of mature in-field trees in situ, providing shade during the summer and shelter during the winter.

A steel-framed mono-pitch farm building was erected on site in 2012 and currently provides fodder storage, but could be used for a number of purposes including livestock housing and machinery storage. It is 60ft x 20ft (6.09m x 18.29m) and divided into four bays, clad on 3 elevations with box profile sheets, with the fourth elevation being gated. Planning permission for a second shed on site was granted in 2013, but the building was not erected and the permission has now lapsed.

The land is well-drained, having undergone a drainage improvement scheme in recent years
