Offers Over £725,000

This substantial Sandstone Detached villa is situated within beautifully kept, private garden grounds and offers a once in a lifetime opportunity to purchase a forever home.

The property itself was built in the 1880's and provides exceptional accommodation over two stories and also includes a further staircase leading to a sizable games room on the top floor. The house is one of the rare ones in Helensburgh which has full height rooms on the entire first floor level and therefore creates a much greater feeling of space and also enhances what are already fantastic views over the gardens and beyond to the Clyde Estuary.

Internally the accommodation extends to around 3200 sq ft which makes this one of the areas largest properties and therefore provides ample opportunities for versatile use of the apartments depending on family requirements.

The property is in a fantastic private setting and indeed when you look out most of the windows all you can see are mature trees and a few of the original properties of Helensburgh which will take you back to period when these prominent houses were the only ones in the area which is why they are located in such sought after locations.

The garden grounds themselves extend around 0.6 of an acre, are mainly level and screened by selection of mature shrubs and original boundary wall.

This has been a fantastic home we have enjoyed for many years. The privacy and space within the gardens is fantastic especially being in such a central location.
