#### Primary energy use

The primary energy use for this property per year is 422 kilowatt hours per square metre (kWh/m2).

# How this affects your energy bills

An average household would need to spend £1,117 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £296 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.
