Dale View was constructed in 2022 with an eye for modern, functional accommodation, which has resulted in an exquisite home for family living. The property is highly energy efficient and features triple glazing and a mechanical ventilation with heat recovery (MHVR) system, which distributes fresh, filtered air throughout the living spaces.

Upon entering the home, the feeling of quality and considered design is obvious, with glazed doors leading your eye straight towards the beautiful scenery beyond. Also set on the ground floor is a spacious sitting room, shower room and an integral garage that can accommodate five vehicles.

A walnut staircase with steel balustrading rises to the first floor, where a sizeable landing contains a study area and connects to each of the bedrooms and well-appointed family bathroom. All of the bedrooms are generously proportioned and include a luxurious master bedroom suite, two further suites and a superb double bedroom.

Dale View sits impressively by the roadside with an attractive facade and boasts extensive off-road parking within a block paved driveway. The rear of the home is a sanctuary for unwinding. A seating terrace spans the width of the house and presents a splendid vantage point of the uninterrupted views. Beneath the terrace is a lovely lawned garden and another patio.

The property is situated in the village of Holmesfield with public houses reachable in a walking distance and access to scenic countryside walks from the doorstep, as well as the Peak District being just a short distance away.
