Dexters

St. Margarets Grove, TW1

This gorgeous four bedroom Victorian family home certainly has the wow factor. Having been beautifully refurbished and extended on all floors, this property demands your attention.

When entering the property you immediately notice the attractive herringbone flooring which runs through the whole of the ground floor. There is pretty cornicing on the ceiling and a useful storage room/boot cupboard. The large double reception room enjoys a wood burning stove, shutters, fitted cupboards and shelving.

We love the smart kitchen/dining room with its stylish fitted units, central island and bifold doors onto the landscaped private and secluded south-facing garden. Upstairs continues to impress with four good size bedrooms, two en suite shower rooms and a large separate family bathroom.

St. Margarets Grove is an excellent location in the heart of the village within excellent school catchment areas. Everything you need is nearby shops, cafés, restaurants, St. Margarets Station and Moor Mead Park at the bottom of the road.
