LOCATION

The subject property is situated off Vale Street which runs northwards from the A58 Bury Road, approximately 2½ miles east of Bolton town centre towards the outer edge of Radcliffe.

The immediate area is of a mixed-use nature, including commercial and residential, with the commercial element dominated by manufacturing and warehousing.

Older and smaller residential buildings are located on either side of Vale Street at its entrance from Bury Road, but this soon changes to industrial on the western side and semi-rural on the eastern side of the road. Vale Street terminates within the industrial area, which is a former factory site. It contains a number of industrial buildings of differing sizes and a variety of ages.

DESCRIPTION

Unit 2 provides for majority open plan workshop accommodation, with various staff welfare/WC facilities set within a modest breeze block constructed block set to the front left-hand side of the unit.

The unit is of majority full-height construction, being open to the underside of the insulated roof covering, although set to and running across the full width of the unit, to the rear, is a mezzanine structure providing for additional space at this first-floor level.

Externally, the unit benefits from a communal, majority tarmacadam surfaced service yard, which provides for a reasonable degree of on-site parking.
