I, Mayfield Road, Bridlington, has been occupied by a professional family since 2005. Mr and Mrs Butland were both involved in University research since 1968. Mrs Butland was honoured as "Woman Engineer of the week" in 2018.

The house was adapted to provide accommodation for them to continue their research independently, and the top storey was fitted up with extensive computing facilities.

The rooms are spacious and can be easily adapted to house a family giving all occupants plenty of room for independent living.

It would make an ideal property for University workers.
