

NEST *at* GLASSHOUSE

A

ALDERLEY PARK

53° 16' 46" N 002° 14' 12" W

Welcome to **GLASSHOUSE** at **ALDERLEY PARK: where ideas are housed but never contained**

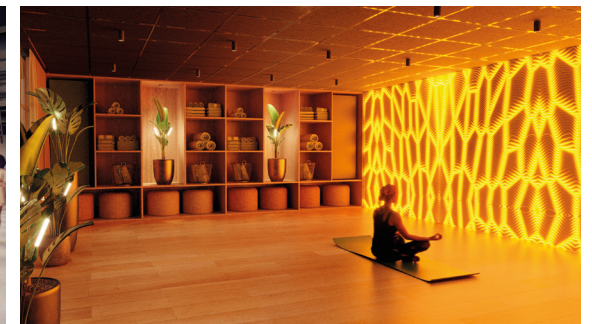

State-of-the art office space available from January 2023.

Glasshouse is a rare haven for innovative, hi-tech companies, offering a range of contemporary office space. In a crowded, hectic world, where space is scarce, Glasshouse bucks the trend, with generous workspaces set in beautiful, extensive grounds, surrounded by exceptional facilities. More than this, it's home to a collaborative community. A place where like-minded, future-facing businesses live, breathe and participate under one roof. Glasshouse is more than a workspace, it's a platform for ideas and success. Because at Glasshouse, ideas are housed, but never contained.

Nest at Glasshouse offers coworking and made and managed workspace. It's a place where ideas can flourish, incubate and hatch. It's a place like no other, where community and collaboration flourish.

Situated on Level 1 of Glasshouse, with floor to ceiling windows, Nest offers a sanctuary away from the hustle and bustle and noise of everyday life. It's home to a bespoke wellbeing area, so whether you're looking for meditation space, yoga space or simply a quiet space to collect your thoughts, you can find your zen and re-charge.
