Band F.

Property Information

1. Structure is 300mm Cavity wall 100mm block skins with insulation.
2. Roof is slate.
3. External render is Weber silicon system.
4. Timber cladding is Therma wood.
5. Heating & Hot water is by external Heat pump. Ground floor is under floor heating & 1st floor is wall hung radiators and the house has thermostat sensors to control the heat. The radiators in the Bathroom & En-suit are due heat . They can heat up by the heating system or in the summer when the heating is off, they can be turned on with electricity to dry towels if needed. In the Kitchen the tap to the sink is a "Hot tap" and can produce boiling water.
6. Electricity is by mains power & solar power. In the pump room there is a facility that the proposed purchaser could install a battery to harvest electricity during the day.
7. Kitchen and appliances was supplied and fitted by Snowdonia interiors and is purpose built to Vendors design, The work tops were supplied by Ruby Granite and are a Dexton product.
8. Bathroom & En-suites all products & tiles were also supplied by Snowdonia interiors.
9. Flooring was supplied and fitted by Linney Cooper.
10. External windows & Doors were supplied and

fitted by John Knights . The windows and doors are a Ali Clad product by Rationel and the Bifold door is aluminium.

11. The external rainwater to the house and site has a full Subs design approved by Anglesey council where the rainwater goes to an underground holding take in the back garden to control the water going into the land. There is also a requirement to install rainwater butts on the down pipes that can also be installed if required. The paths & estate road are of all permeable products, so the water drains through the land.

12. The front stone wall is made from Anglesey Limestone which is quarried in Moelfre.
