To this day is full of character and retains many charming original features. Benefiting from gas fired central heating, the accommodation briefly comprises: -

- Generous lounge with a wealth of beams, impressive inglenook fireplace and original staircase leading up to the two floors. Continuing on the ground floor there is a fitted Kitchen with access to the dining room and rear walled courtyard which in turn leads to the utility/boiler room. To the first floor there is a large room with two windows overlooking Castle Street both with window seats, considered a versatile room which could be a bedroom or a second lounge. In addition, there is a four-piece bathroom and two interconnecting bedrooms, one with access to the balcony/roof top garden area which overlooks the rear courtyard below. Half way up the second-floor staircase there is access to a useful attic storage area. The second floor has a spacious bedroom with feature vaulted ceiling and exposed beams, two dormer windows and access to an en-suite shower room/WC.
