Offers a traditional snug bar with 3 attractive and individual letting bedrooms, external seating areas and generous guest parking

Trades throughout the year generating good profitability and turnover

Various exciting development opportunities available

Pleasant and comfortable owners accommodation together with well-equipped service areas

DESCRIPTION

Strathy Inn is a striking detached property. Parts of the Inn date from 1810 when used as a coaching Inn and subsequently extended to meet the growing demand for accommodation and food. The business is located on the stunning northern Coast of Sutherland at the side of the A836, and benefits from being directly on the North Coast 500. With wild but beautiful scenery, beaches and wildlife on the Inn's doorstep, this is a tranquil and peaceful place. The front of the building looks south with stunning view to hills and moorlands of Sutherland, whilst the North of the building overlooks the North Atlantic and to Orkney.

The Inn is well-known and enjoys a good reputation for the quality of the provision offered. With a great standing as evidenced on various review sites, there is no doubt that the purchase of the Strathy Inn offers an exciting opportunity. The business normally trades year-round, with the majority of trade occurring during the main tourist season (April to October). This welcoming Inn offers guests a high standard of accommodation. The three letting bedrooms are all individually finished to a beautiful standard. The opportunity to relax in a comfortable outside space makes the most of the beautiful location.

REASON FOR SALE

Having bought the property in 2007, the current owners successfully developed the business into the successful operation it is today. It is now their wish to retire that brings this attractive business to the market.

PROFITABILITY

Whilst the vendors currently run the business under capacity through choice, the Inn's profitability levels are improving. The vendors have continued to invest in the property while still achieving solid profitability levels.

LOCATION

The Inn is situated within the village of Strathy, on the A836, located above the mouth of the Strathy River and overlooking some stunning scenery including Strathy Bay. The site is very centrally situated on the North Coast 500 and ideal for any John O'Groats to Lands' End challenge avoiding main roads. The village of Strathy emerged in the late 19th century as the north coast was populated by families forcibly displaced during the Highland Clearances. Strathy is located close to the town of Thurso. This region has long been a Mecca for the outdoor sports enthusiast. Not only does the area host an impressive range of top fishing rivers and lochs, it is a prime destination for all outdoors sports, particularly surfing and many watersports. The northern coastline boasts an impressive array of spectacular beaches, hill climbing, walking and family activities – all of which have greatly increased in popularity with the success of the NC500 touring route.

Sutherland is an area rich in wildlife, home to herds of wild red deer, sea life and a multitude of bird species amongst others. Ornithologists are frequent visitors to the county, attracted by the golden eagle, hen harrier, peregrine falcon, short eared owl, puffins and numerous other birds of prey; all of which can be seen at the nearby Forsinard RSPB site or local coastal areas. There are many tourism options to keep visitors interested and entertained. From John O'Groats to Durness on the North West coast, Strathy is perfectly centrally located for easy access to both coastlines. A day trip to Orkney is within easy reach, as are numerous sites of archaeological interest and visitor centres such as the Castle of Mey. The nearby town of Thurso offers a wide range of shops, restaurants and facilities. Primary School aged children go to Melvich Primary School, some 4 miles away with Senior Schooling at Farr High School (North Coast Campus) in Bettyhill, some 12 miles away.

TRADE

The current owners do most of the work themselves, using occasional/casual staff in the summer months to supplement their input where required. The business

has usually operated all year except closing for a few days here and there to allow the owners some down time. Currently the owners open the bar six days a week and trade two of the three bedrooms with changeovers six days per week, with a Monday off. The bar and restaurant have been opened for limited hours over the winter months but an increase in opening could increase profits considerably.

THE PROPERTY

The Strathy Inn is a substantial detached villa set in spectacular rural environment. The central part of the Inn dates to the early 1800s when the site was developed as a Coaching Inn to service the newly laid north coast road. Some parts of the building to the east may pre-date this. Others, such as the front porch and the kitchens at the back, were added later. The building is predominantly of stone walls and with a slate roof. A number of extensions and some internal reorganisation has occurred over the years to convert the Inn into what we see today. There are a number of parts to the building, working from west to east; the barn, the letting accommodation, owners' accommodation, bar / restaurant, five bed house and the bothy. Each of the developed areas are well considered and arranged, with the undeveloped areas offering great development opportunities. The surrounding grounds are laid to grass or gravel to facilitate low maintenance.

Entrances

On arriving at the Inn, you enter through a very pleasant lobby, which is bright and airy with soft seating. This area catches the sun throughout the year and is a relaxing place to enjoy the winter sun. The lobby opens into the main circulation corridor, which provides access to the letting accommodation, breakfast room and the owner's accommodation.

The bar / restaurant is accessed through a separate door directly from the car park.

Letting Accommodation

Entry to the very well-presented guest accommodation is to the left of the main entrance with access to the breakfast room and to the ground floor and the first floor bedrooms. In total, the Inn offers three individually decorated letting bedrooms which are all light and inviting. Please note that bedroom three is not currently traded to suit the owners' trading model. Each of the lovely rooms are well-equipped with attractive furniture. All rooms have comfortable beds and are centrally heated. The in-room services include a TV, free WiFi, hospitality trays, complimentary toiletries and hairdryers. The letting rooms are configured as follows:

Room 1	Ground floor king size with shower en-suite
Room 2	First floor family room with one double and one single bed and ensuite shower room
Room 3	First floor small double bed with private shower room

Rooms can be booked through the Inn's own website using the Freetobook platform, Expedia, Visit Scotland or by contacting the Inn directly.

Owners Accommodation

The current owners accommodation is located in two separate areas within the south east end of the building and is arranged to suit their needs. If required, the area could be reconfigured to add more letting rooms. The accommodation comprises of three pleasant double bedrooms and a spacious bathroom on the first floor whilst on the ground floor there is a comfortable lounge, office and domestic kitchen. There is access into the commercial kitchen from the owners accommodation, facilitating easy movement between the various areas of the building.

Restaurant / Bar

To the east of the building there is a lovely restaurant / bar area which can accommodate 16 to 20 covers. This is a delightful traditional area in which to enjoy your breakfast or evening meal. The attractive restaurant / bar is freshly decorated with comfortable tables and chairs and can also be used for functions. To the side of the area there are male and female toilets. There is the opportunity, if new owners wished, to increase the restaurant capacity by including the current owners lounge as a connecting door is present.

The bar area is located to one end of the restaurant and provides plenty of space to house a well-equipped bar. This area provides storage for bottled drinks and benefits from direct external access for ease of deliveries. The main spirit / alcohol store is located close by within the property.

Five Bed House

This building was originally built in the 1970's and was taken to a certain point before construction stopped. At one stage the building was wind and water tight with the 1st floor being occupied by staff. The ground floor has never been occupied. At some point before the current owners bought the property the building was allowed to deteriorate. Currently the windows, possibly significant sections of the roof, and some internal areas which had previously been fitted out, will require to be reconditioned. This building is typical of its time, being

constructed from a timber kit with a rendered blockwork and external weather skin with a tiled roof. The weather skin does appear to be sound. Anyone taking on this property with the view of completing the development would be advised to have it surveyed and then verified with the statutory authority as to what would need to be undertaken to complete the build.

Barn

The barn is currently used for storage. It measures circa 7.6m x 4.2m internally and would ideally make a one bed studio self-catering unit. The building is currently neither insulated nor lined and there would be some work required to bring it up to standard. However, the structure does appear to be sound, so presents an opportunity should new owner desire.

Bothy

The bothy is a stone construction lean-to, attached the to 5 bed house. It measures approximately 3.7m x 3.9m and represents a further development opportunity for new owners as it could be developed into a "king suite" type of self-catering room. We understand that there is capacity with the main building to serve this property. As it stands, the enclosure needs a reasonable level of work and it is anticipated significant work would be required on the roof but it is a further opportunity to develop the business.

Static Caravan

There is a 2 bed traditional static caravan which has been used as letting accommodation in the past. It appears in reasonable condition so could be easily freshened up, thus possible providing staff accommodation, if desired. The bedding is set to a double and twin. The caravan has an open plan kitchen / dining / lounge area and shower room.

SERVICE AREAS

The Inn benefits from an appropriately sized commercial kitchen which has been fully refurbished and is fully compliant with FSA requirements and was inspected and passed in 2024. The kitchen is equipped with a six burner gas range stove with oven under a canopy exhaust, surface mounted grille and microwave. There are separate prep and a wash up areas. Within the wash up area there is a dishwasher. The kitchen has ample work surfaces, servery and storage. There is a direct connection into the bar / restaurant making service simple.

Throughout the building there is good level of distributed storage for linen and cleaning materials and hoovers etc. The Inn has its own laundry at the rear.

GROUND

The property has roadside signage to assist guests to find the Inn. Access to the Inn is via a gravel car park on the south side of the building. This area has capacity for more than 10 cars whilst still having plenty of space for delivery truck manoeuvring. To the east of the car park, is a low walled garden with views all round. This is mainly laid to grass. Picnic tables have been placed here with easy access to the bar.

To the east side of the Inn, there is a second enclosed area, which acts as the front garden to the house. This is mainly grassed, with limited perimeter planting. This area can be used as a delivery entrance to the kitchen and bar and hosts the bins. To the rear of the property there is a grassy section with a washing line. The LPG gas bottles and oil storage tank are both located here, along with a static caravan. The rear is accessible through a metal gate on the west end of the property.

SERVICES

The property benefits from mains electricity, oil heating and hot water, LPG gas for cooking, mains water and dedicated septic tank drainage. The inn complies with environmental health requirements, has a fully compliant smoke alarm system and is Wi-Fi enabled throughout.

BUSINESS DEVELOPMENT OPTIONS

There are a number of development options available to the purchaser that could be considered should they wish to enhance the profitability of the Inn such as:

- Develop the part built five bedroom house
- Open for light bites and coffee during the day
- Develop the barn on the west side of the property to provide self-catering accommodation
- Develop the bothy on the east side of the property to provide self-catering accommodation
- Develop the takeaway trade
- Open the bar / restaurant for longer periods of the winter months and increase its capacity
- Trade bedroom three or reconfigure the owners accommodation to provide more letting rooms

RECENT INVESTMENTS

The current owners have made extensive investments during their time here. All windows have been replaced along with slate and flat roofs. The addition /refurbishment of bathrooms and refurbishment of the commercial kitchen all result in the business being brought to the market in the great condition it is today.

LICENCE

The business has a license under the Licensing Scotland Act 2005, and a copy of the operating plan is available to interested parties which details operating practices. License number is HC/CSER/0378.

ACCOUNTS

Full accounting information will be made available to interested parties subsequent to viewing.

WEBSITE

The current owners have their own web site, <http://www.strathyinn.com>. They are listed on TripAdvisor with a 4.5 rating. The hotel has its own active Facebook page.

EPC RATING

This property has an Energy Performance Rating of 'TBC'.

TITLE NUMBER

The title number for Strathy Inn is 'STH44'.
