OWNERS COMMENTS

This is my favourite project home to date, Abingdon House (not sure where it originates) was built in the 1890s, I bought in April 2021 and the house had not been lived in for 40 years, so it had retained all its original features, apart from 1 fireplace surround in the front room. Luckily, this has been sourced from the original owner and reinstated.

Further notes on improvements carried out:

- All skirting boards are stone.
- All walls replastered with original cornices.
- Original stairs, high ceilings and feature fireplaces in all rooms.
- All original sash windows, and original coloured glass.
- Blinds to all windows, with secondary Perspex glazing.
- Cat5e to bedrooms and main rooms.
- Fibre to house, currently with Virgin. Gigabit Internet.
- All external drains replaced.
- Water supply changed from old lead to new plastic, completed by Severn Trent on the lead replacement scheme.
- Fully rewired with ample sockets in all rooms. Sockets available in some rooms for TVs, also having cat5e.
- Top two floors have separate heating controls.
- All ceilings reboarded and skimmed, keeping shadow gaps to cornicing.
- All pipes & electrics hidden into walls.
- Powered smoke alarms and sensors.
- All original doors.
- Water pump and alarm in cellar to sump.
- Air ventilation to cellar from under main steps to house.
