From the hall, double doors lead into the dining room and also through a further set of doors into the sitting room. This room which features a built-in gas fire and benefits from a large sliding patio door which leads out to a raised decked terrace with panoramic views.

The lower level, accessed via stairs from the entrance hall, includes two further double bedrooms. This floor offers flexible potential for guest accommodation or for home working.

GARDENS AND GROUNDS

The gardens are largely positioned to the rear of the house, laid out to maximise the stunning views. Pathways to either side of the house lead to the level lawn and the large decked entertaining space with glass balustrade overlooking the pool.

Beneath the house, doors lead to two basement/storage rooms—one of which was previously used as a gym/studio, while the other provides useful storage for garden machinery with a door to a WC.

The heated swimming pool measures approximately 7.3m x 3.5m and includes a retractable aluminium cover, allowing for extended seasonal use. Adjacent to the pool is a paved terrace, with steps leading down to building housing the separate gas fired boiler for the pool and its filtration system.

Behind a fence and wall at the bottom of the garden is a small strip of land which has previously been cultivated for vegetable growing with raised beds.
