Description

The St. Andrews Church Room presents an exciting and rare opportunity to acquire a historic, unique and charming building within South London.

Previously converted into a medical practice (Class E) the building retains much of its original features with floods of natural light, internal beams and expansive open plan spaces which create potential for a range of uses.

The grade II listed building is comprised of basement, ground and first floor levels. The property has been partitioned into several spaces to provide reception, private consultation and office space on the mezzanine level.

This unique property, rich in architectural charm, offers immense potential for a variety of redevelopment options, subject to planning consent. A pre app was conducted in 2016 which can be shared if requested.
