Well laid out over 3 floors and amounting to almost 1,900sqft in all, this property is available now with NO CHAIN DELAY and also with a PART-FURNISHED OPTION AVAILABLE. Modern features abound in this home, while retained character elements such as original stone and metalwork, a stunning vaulted roof and great ceiling heights throughout, are all superbly combined with contemporary presentation. Underfloor heating throughout the property also adds another luxury touch and contributes to energy efficiency with the property boasting an EPC 'C' energy rating too.

Being a former mill warehouse, large aluminium-framed windows, French doors and internal feature glazing, allow natural light to flood the interior spaces, while also providing great privacy. The thoughtful, bespoke layout also makes the most of expansive open plan top floor living space. The kitchen has comprehensive facilities including 2 ovens, 2 warming drawers, gas hob and built in microwave, while the instant hot water tap and waste disposal add convenience and a premium touch. Centre stage, the large feature island is a real social hub and leading on from this, the dining and living areas are each also very well proportioned, providing perfect entertaining or relaxing space alike. The dining area offers ample capacity for gatherings, while the lounge has a spacious yet cosy feel with a fully fitted feature media wall.

Moving downstairs, the first floor houses the master bedroom and bedroom 2, each with their own spacious en-suites and the master has a dressing room area too. On the ground floor are a further two bedrooms, plus a shower room, utility room with boiler room and the hallway has under stairs storage too. From Bedroom 3 there are French doors out to the beautiful courtyard garden area providing amazing outdoor space too. The property's 3-storey layout itself, could also easily lend itself to multi-generational living too, as the ground floor could be readily configured as a self-contained annexe / teenage wing / granny flat, etc.

These are all accessed via the impressive entrance hallway, itself with plenty of built in storage. Indoor planting areas add interest and impact to this unusually outstanding entrance, with a further unique feature being a walk-on glass floor module over a sunken fish tank.
