Energy Performance Certificate

447, Streetsbrook Road, SOLIHULL, B91 1QZ

Dwelling type: Detached house
Date of assessment: 03 December 2019
Date of certificate: 03 December 2019
Reference number: 9074-2857-6028-9701-6381
Type of assessment: RdSAP, existing dwelling
Total floor area: 246 m²

Use this document to:

- Compare current ratings of properties to see which properties are more energy efficient
- Find out how you can save energy and money by installing improvement measures

Estimated energy costs of dwelling for 3 years: £ 3,855

Estimated energy costs of this home

	Current costs	Potential costs	Potential future savings
Lighting	£ 360 over 3 years	£ 360 over 3 years	Not applicable
Heating	£ 3,081 over 3 years	£ 3,081 over 3 years	
Hot Water	£ 414 over 3 years	£ 414 over 3 years	
Totals	£ 3,855	£ 3,855	

These figures show how much the average household would spend in this property for heating, lighting and hot water and is not based on energy used by individual households. This excludes energy use for running appliances like TVs, computers and cookers, and electricity generated by microgeneration.

Energy Efficiency Rating

The graph shows the current energy efficiency of your home.

The higher the rating the lower your fuel bills are likely to be.

The potential rating shows the effect of undertaking the recommendations on page 3.

The average energy efficiency rating for a dwelling in England and Wales is band D (rating 60).

The EPC rating shown here is based on standard assumptions about occupancy and energy use and may not reflect how energy is consumed by individual occupants.

Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years
1 Solar photovoltaic panels, 2.5 kWp	£3,500 - £5,500	£ 915
