Residential Sales Particulars

Lee Croft, Great Comberton, Pershore, WR10 3DP

Situation

Lee Croft is a detached dormer bungalow offering flexible accommodation, with five bedrooms over two floors, two en-suite double bedrooms, ground floor shower room, large reception rooms to include a conservatory, fitted kitchen/breakfast room, utility room and good sized attached garage, mains gas central heating and having a good position with panoramic views.

Great Comberton, is a popular rural village on the side of Bredon Hill, which offers easy access to all main centres, the M5 motorway is approximately 12 miles distant travelling north and south and there are railway stations at Evesham and Worcester to interconnect in all directions.

The market town of Pershore is Georgian styled and provides high street shopping facilities and supermarket together with a leisure complex. The river Avon runs to the east of the town lending itself to scenic walks and leisure pursuits. There are two medical centres and hospital and town library, together with excellent educational facilities within the area. Pershore has Number 8 which is run by voluntary help and provides theatre activities, a cinema, ballet and yoga classes and is very much a part of Pershore community living.

Off Station Road there is the railway link to London Paddington or Worcester Shrub Hill travelling onto Birmingham. The motorway is approximately nine miles distant at Worcester junction 7 bringing Birmingham to the north and Bristol to the south within commutable distance. Other main centres are Stratford-upon-Avon with the theatre and racecourse, Cheltenham with National Hunt horseracing and the Everyman Theatre and major main shopping, Worcester with famous Cathedral and equally famous cricket club together with the River Severn and good shopping centre.

The new Worcestershire Parkway Station has been developed to improve the access and destinations to the southwest, the northeast, London and the Thames Valley. So significantly enhancing Worcestershire's connectivity to outlying regions.
