Summary

This stunning 3-bedroom cottage is nestled in rural Brampton, just 5 miles from the popular seaside town of Southwold and a short drive from the historic market town of Halesworth. Known for its arts and culture, Halesworth offers a lively atmosphere with independent shops, cosy cafés, and a community spirit, centred around the New Cut Arts Centre and beautiful town park. This unique detached family home brims with charm and original period features, complemented by a separate annex providing a 4th double bedroom, 4th bathroom, and potential for rental income. The property offers ample parking, a double garage, planning permission for an additional extension, a licence for three touring caravan pitches, an 18-panel solar power system, a newly fitted kitchen, and an upgraded heating system. Viewings are essential to appreciate all that this property has to offer!

There is also separate loft space which can be accessed with a pair of ladders using the hatch located externally on the left hand side. The garage also benefits from full ownership of an 18 panel solar scheme together with Tesla battery. This provides the owners with free electricity from (approx.) early April through to September each year. The scheme also helps to generate income via a feed in tariff back to the national grid which helps offset winter costs, please enquire for more information.

Boiler Room (1.83m x 3.07m)

Adjoined to the rear of the property with UPVC double glazed door to the side aspect, with newly fitted hot water tank and water softener inside.

Agent Note

- This property benefits from approved planning permission for a further two storey extension and summerhouse which is currently still valid. - PLEASE FIND DETAILS FOR PLANNING: DC/18/2517/FUL East Suffolk Council Website

- The current owners have acquired a licence with the caravan and motorhome club for approval of three touring caravan pitches (located next to the garage/annex), one which is hardstanding and fully serviced, another excellent income potential.

- Sewage is dealt with via a macerator and the property is powered by an air source heat pump.

- Please note that the measurements based on the overall size of the plot of land has been produced on an estimation
