- Ample Off Road Parking

An extended three double bedroom detached cottage sympathetically renovated and restored throughout to a high standard, occupying a large plot extending to just over a quarter of an acre within easy reach of local amenities, the A38 and M1.

Greenwood Falls Cottage is believed to date back to the mid 19th Century with later extended additions completed by our clients in 2018 to the rear on the ground and first floors. Our clients have carried out a substantial program of renovation and improvement throughout the house during the same time as the extension work creating a first class property of high calibre.

The property offers a spacious layout of living accommodation spanning over two floors extending to circa 1519 sq ft with the majority of the rooms a dual aspect. The ground floor comprises two reception rooms; a dining room and lounge both with beautifully appointed restored beamed ceilings with the main central beams from the Chatsworth Estate. There is a large 30ft open plan kitchen/diner with Aga cooking range and French doors, a utility room and a downstairs WC. The first floor landing leads to a master bedroom with a dressing area and an en suite. Completing the accommodation are two further double bedrooms. The property is rated band A for council tax, has UPVC double glazing, solid fuel heating and a new Klargester sewage treatment plant will be installed by the end of 2024.

OUTSIDE

Greenwood Falls Cottage occupies a lovely position beyond the end of Mill Lane cul-de-sac on an unadopted lane set well back behind a picket fence and double gates which open onto a wide gravel driveway providing ample off road parking. There is a lawned front garden with a hardstanding paved path which leads to a shed. There are steps leading down to a paved patio and path which extends across the full width of the property. Large double gates to the left hand side of the house provides vehicular access to the side and rear of the property. An additional gate to the right hand side of the house also provides access to the rear garden. The rear garden is on two levels and enjoys a south westerly aspect and a pleasant elevated feel. There is a substantial paved patio with planting borders on one side and a low picket fence at the end overlooking the lower level garden. There is a block paved patio area between the kitchen and utility room, a lawn and a large driveway space to the side of the house with vehicular access to the lower level garden. A central paved path and four steps lead to a gravel path down to the end of the garden where there are two lawn sections, fenced boundaries on all sides and a large workshop (21'8" x 9'10") with fantastic scope to build a garage subject to obtaining necessary planning permission.
