A substantial five double bedroom detached residence occupying a good sized corner plot with an integral double garage in a highly regarded village location.

The site originally had a single storey dwelling on the plot built in the 1970s by our client's father. In 2009, our client demolished the property and replaced it with an individually designed, five double bedroom detached family home completed in 2010. The property boasts substantial and versatile family living accommodation over two floors extending to circa 2,773 sq ft with a new gas boiler installed in January 2025, electric underfloor heating to the ground and first floors and UPVC double glazing.

The ground floor living accommodation comprises a vaulted entrance hall exposing the first floor galleried landing, cloakroom, office, over 10m open plan kitchen/diner, utility, lounge, conservatory and bedroom five with an en suite. The first floor galleried landing leads to a master bedroom with dressing area/fitted wardrobes and an en suite. There are three further spacious double bedrooms and a family bathroom with a bath and separate shower. The Canadian redwood beams from the loft of the original dwelling have been retained and installed to the landing, master bedroom, bathroom and mantle in the lounge.

OUTSIDE

The property occupies a good sized plot extending to circa 0.19 of an acre in a highly regarded area within this popular village location. There is a gravel driveway frontage providing off road parking leading to an integral double garage with a gate to the side providing access to the rear garden. The front garden is enclosed by a low brick wall frontage with a lawn, borders with plants and shrubs and a block paved and paved pathway extends across the front and side with gated access round to the side and rear of the property. To the rear of the property, there is a gravel path extending across the full width of the property with a low retaining walled boundary and steps leading to a raised lawn and a private patio area with summerhouse. There are deep borders with mature shrubs and trees which extend beyond the house to the side garden. To the side of the property, there is a really good sized garden featuring an extensive paved patio leading to a lawn and further patio area.
