CONTEMPORARY RIVERSIDE LIVING AT RIVERLIGHT QUAY

Set within one of Battersea's landmark riverside developments, this beautifully presented two-bedroom apartment combines contemporary design, generous proportions and exceptional private outside space.

Extending to approximately 1,066 sq ft, the apartment has been designed around light and views, with floor-to-ceiling glazing throughout the principal living spaces and direct access onto two private terraces.

The open-plan reception, dining and kitchen area creates a natural centre to the apartment, offering a sophisticated but genuinely usable space for both everyday living and entertaining. The principal reception space is defined by its floor-to-ceiling glazing, creating a wonderfully bright interior and a strong connection between the apartment and its riverside surroundings. The contemporary kitchen sits naturally within the open-plan space, with sleek cabinetry, integrated appliances and a central island providing both additional preparation space and an informal place to gather. Doors open directly onto the private terrace, extending the living space outside and creating an apartment that feels particularly impressive during the warmer months.

The principal bedroom offers excellent proportions, built-in storage and a beautifully finished en-suite bathroom. Floor-to-ceiling glazing maintains the sense of light found throughout the apartment, while access to the outside space gives the room a particularly open and peaceful feel. The second double bedroom is equally well considered, making it ideal for guests, children or use as a substantial home office.

- Contemporary Kitchen with Island
- Residents' Spa/Pool/Gym
- Concierge
- Underground Parking

Battersea riverside living

Location:

Battersea has undergone one of London's most significant transformations, evolving into a genuinely established destination while retaining the open spaces and riverside character that have always made this part of Prime London attractive.

The redevelopment of Battersea Power Station has brought an extraordinary collection of restaurants, cafés, shops and leisure facilities to the neighbourhood, while Battersea Park provides approximately 200 acres of green space moments from the river. Chelsea is moments across the river with all the amenities of the Kings Road with it.

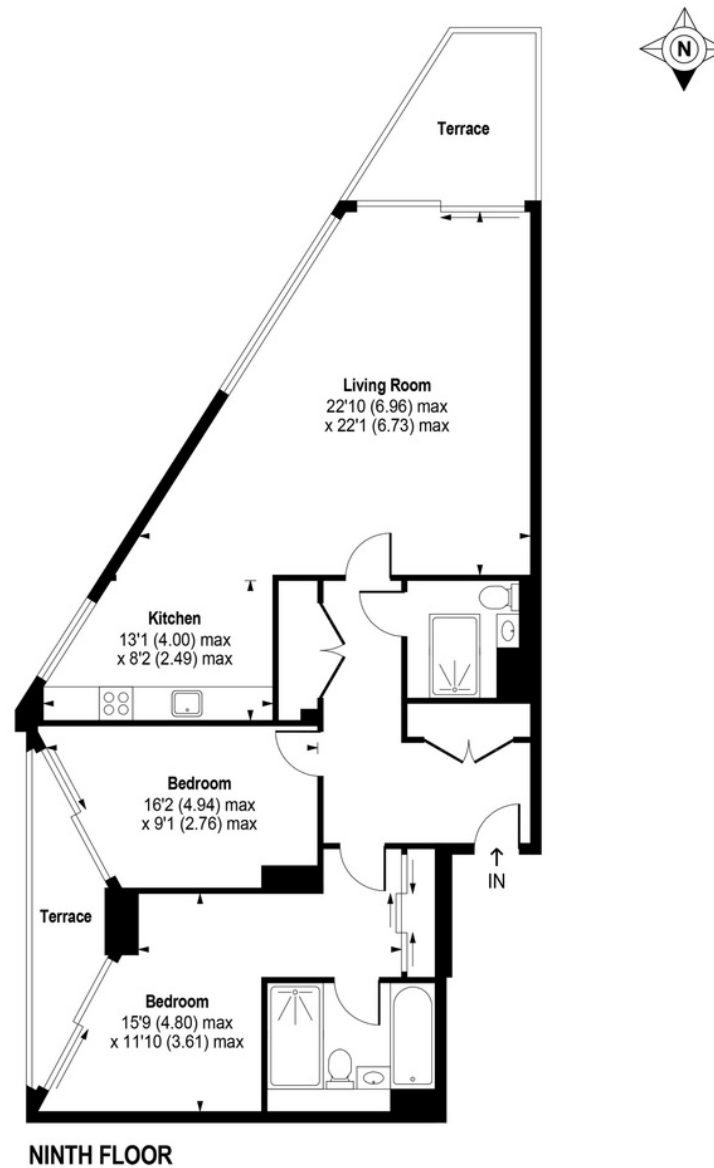

Transport connections are equally strong, with the Northern line at Battersea Power Station providing direct access into central London alongside excellent road, bus and river connections.

Riverlight therefore occupies a particularly compelling position: close enough to enjoy everything Battersea has become, while retaining the quieter atmosphere of a dedicated riverside development.
