Maps
Coal Mining

This map displays nearby coal mine entrances and their classifications.

Mine Entry

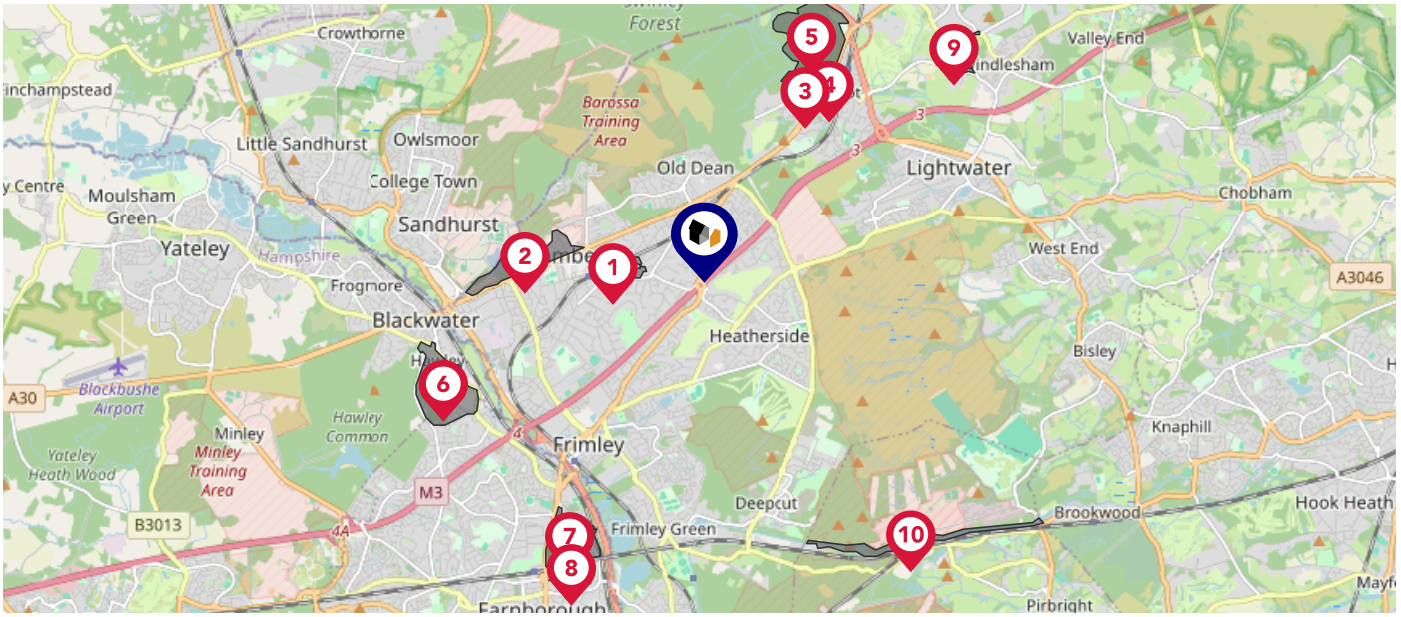

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Maps
Conservation Areas

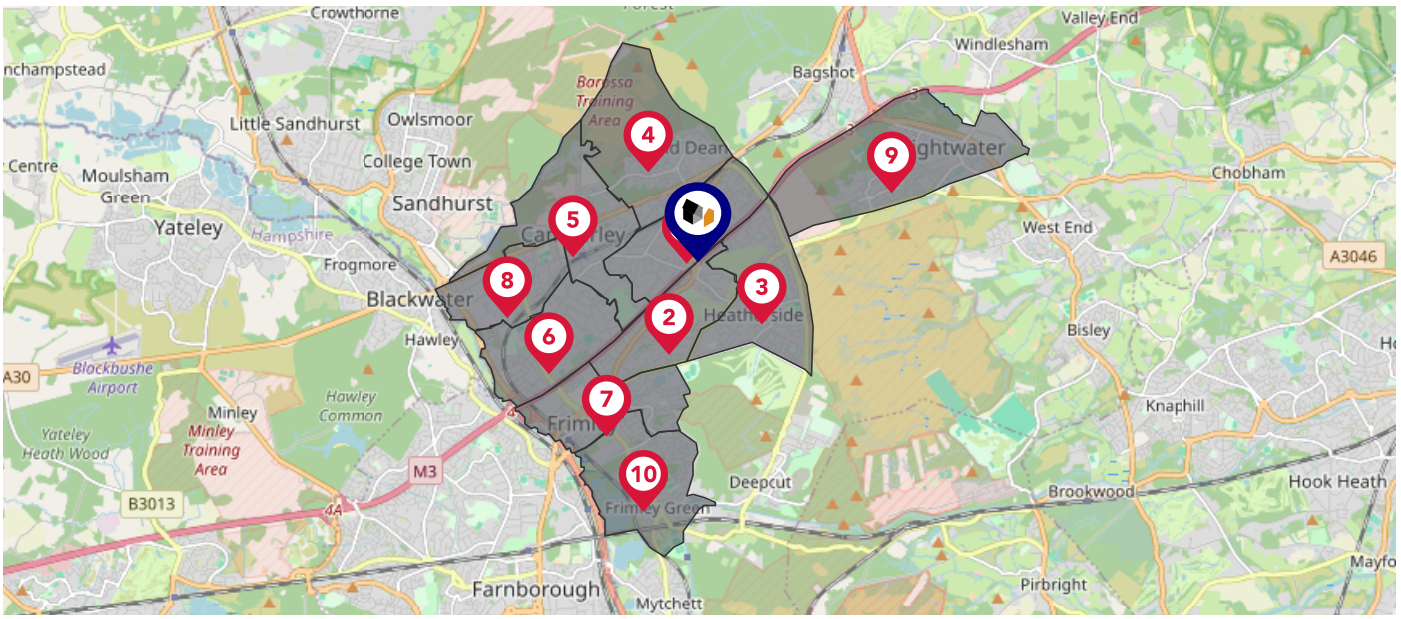

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Nearby Conservation Areas	
1	Upper Gordon Road to Church Hill, Camberley
2	Royal Military Academy (Former) Staff College
3	Bagshot Church Road
4	Bagshot Village
5	Bagshot Park
6	Hawley Park and Green
7	Farnborough Hill
8	Saint Michael's Abbey
9	Church Road Windlesham
10	Basingstoke Canal North

Maps
Council Wards

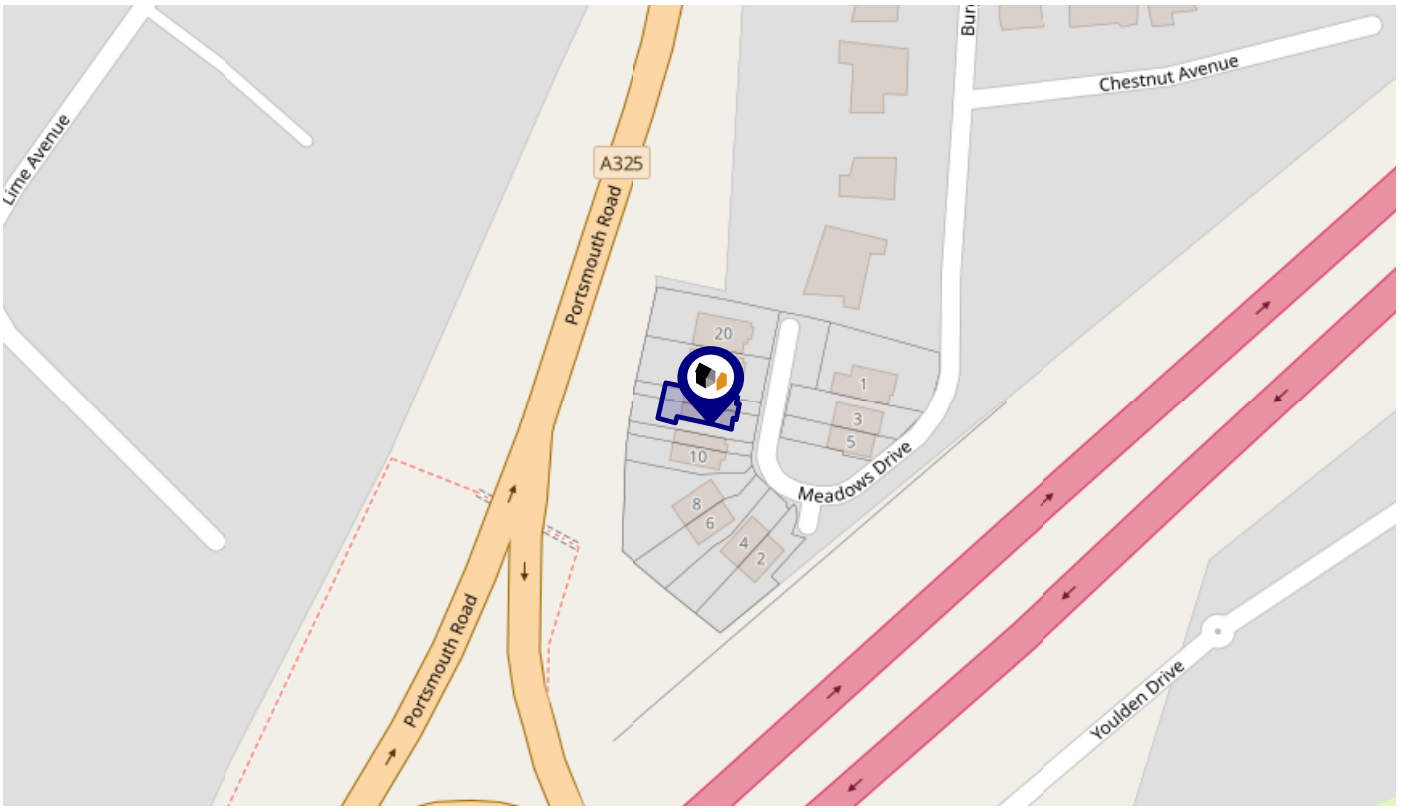

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

Nearby Council Wards	
1	St. Pauls Ward
2	Parkside Ward
3	Heatherside Ward
4	Old Dean Ward
5	Town Ward
6	Watchetts Ward
7	Frimley Ward
8	St. Michaels Ward
9	Lightwater Ward
10	Frimley Green Ward

Maps
Rail Noise

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

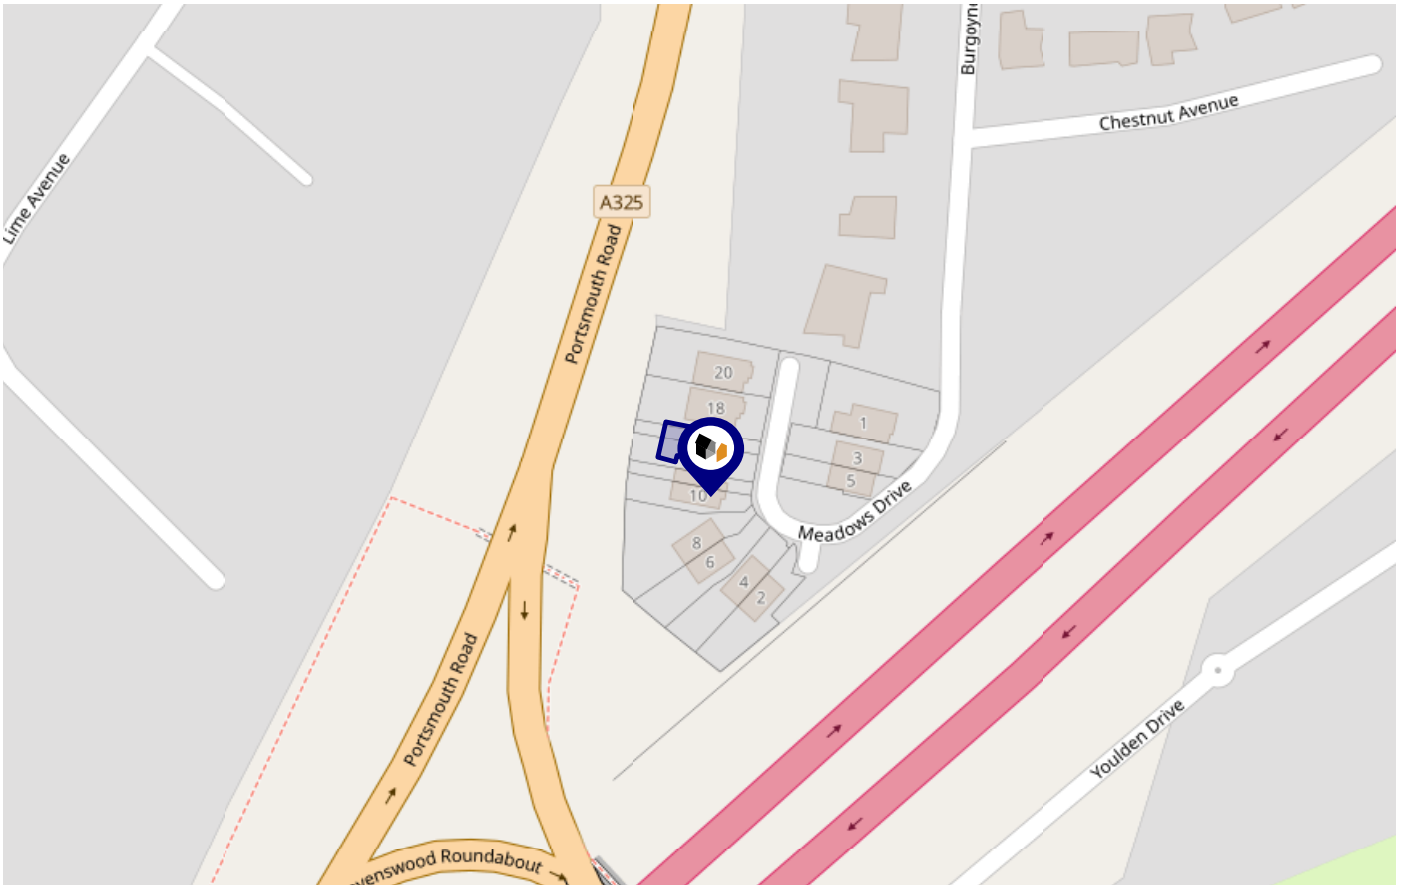

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5	75.0+ dB
4	70.0-74.9 dB
3	65.0-69.9 dB
2	60.0-64.9 dB
1	55.0-59.9 dB

Flood Risk
Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

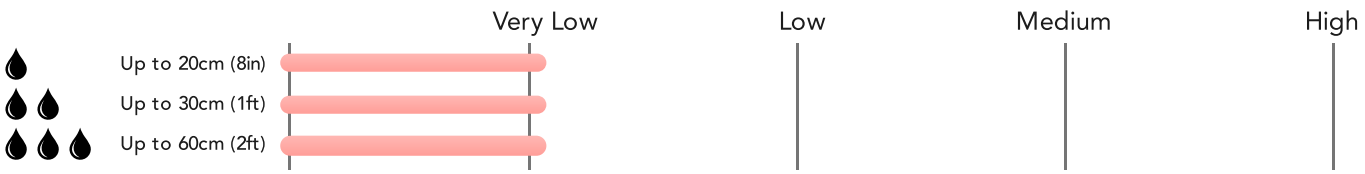

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

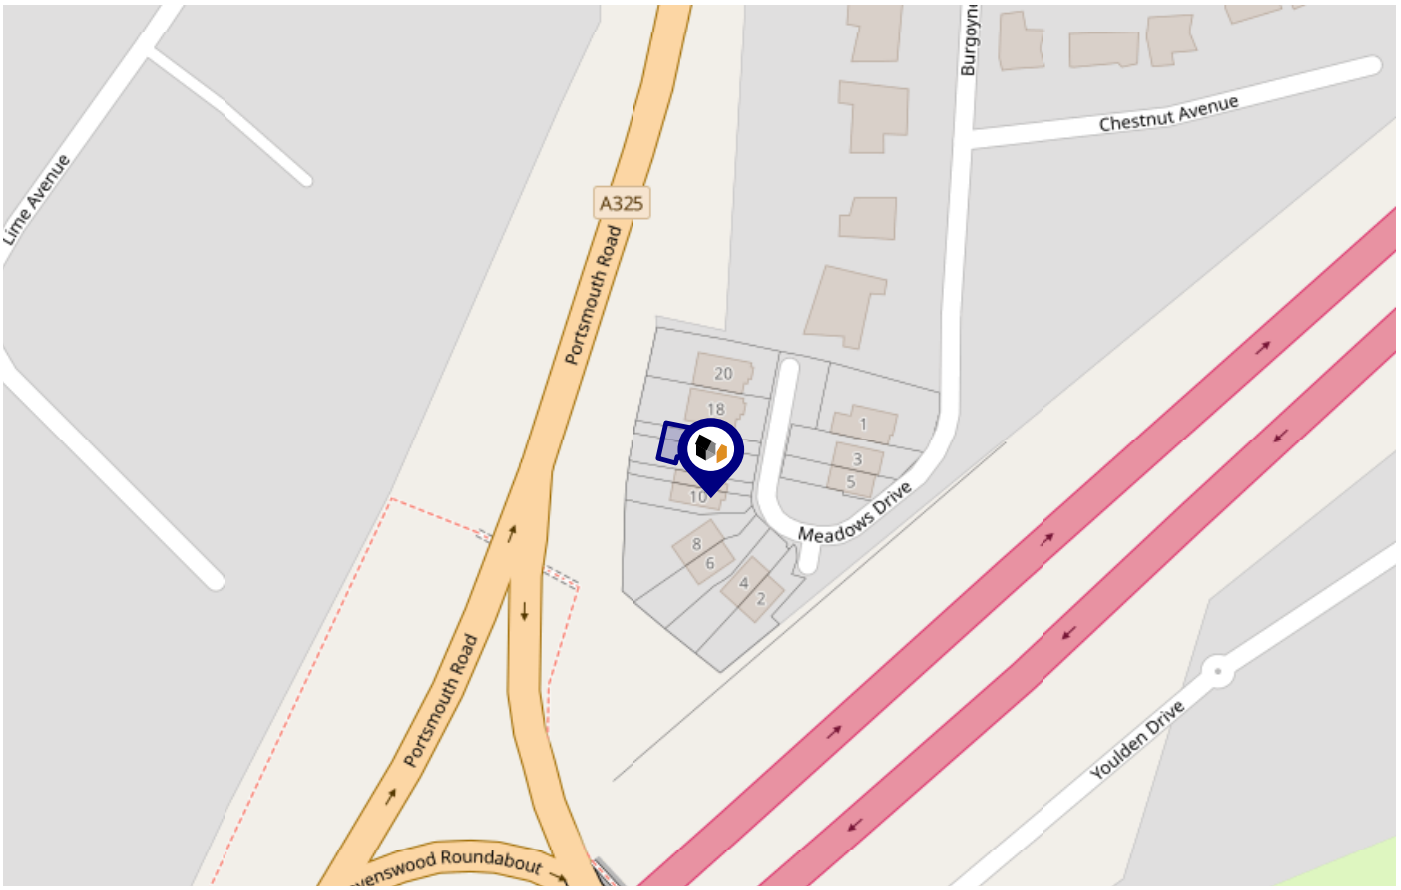

- **High Risk -** an area which has a chance of flooding of greater than **1 in 30 (3.3%)** in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than **1 in 100 (1.0%)** in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than **1 in 1000 (0.1%)** in any one year.
- **Very Low Risk -** an area in which the risk is below **1 in 1000 (0.1%)** in any one year.

Chance of flooding to the following depths at this property:

Flood Risk
Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

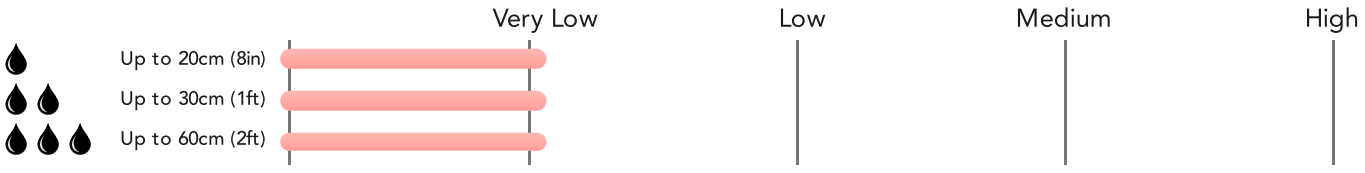

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

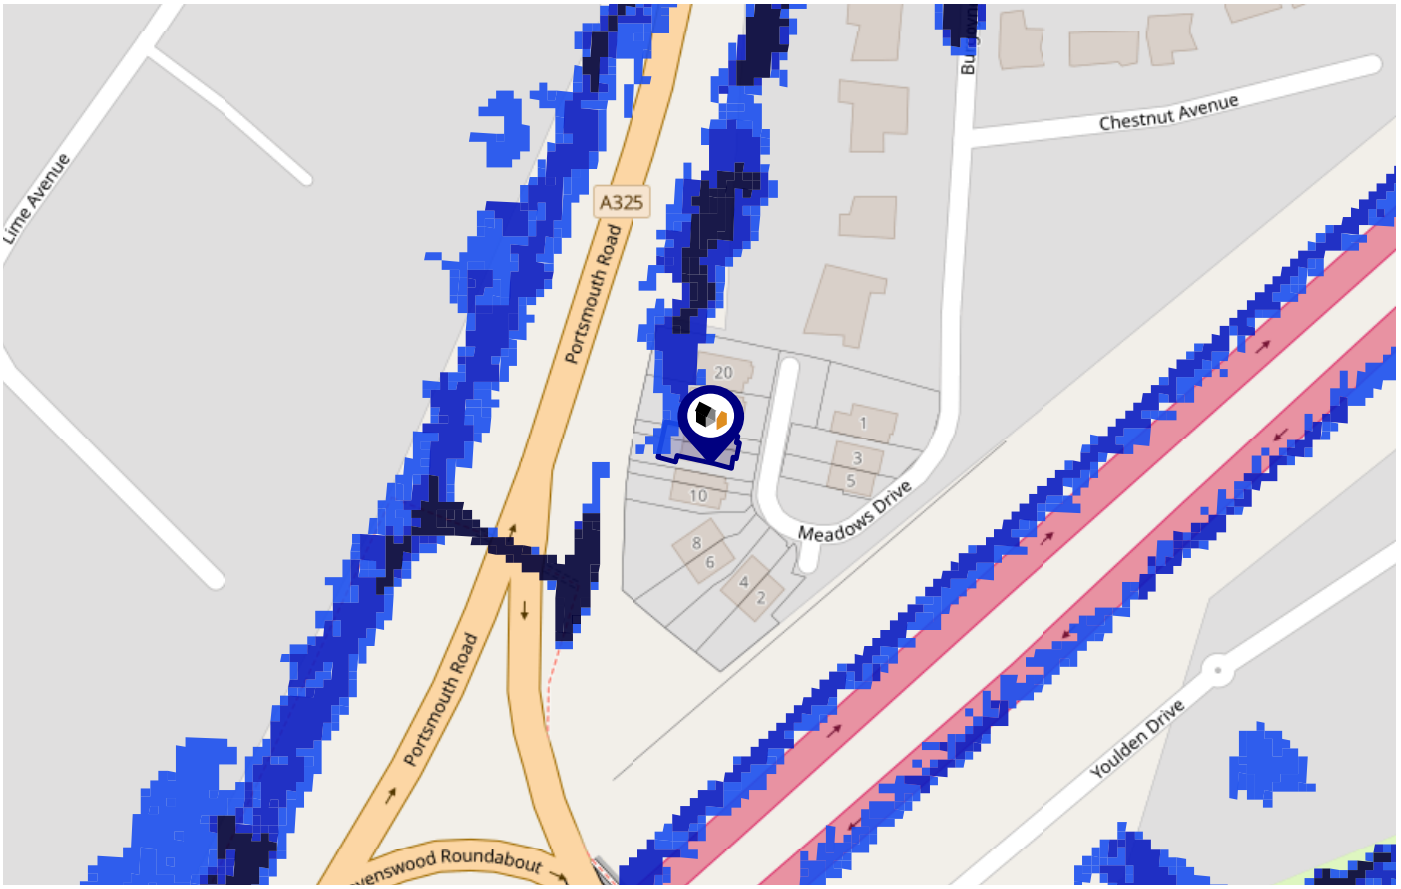

- **High Risk -** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- **Very Low Risk -** an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk
Surface Water - Flood Risk

This map shows the chance of flooding where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas.

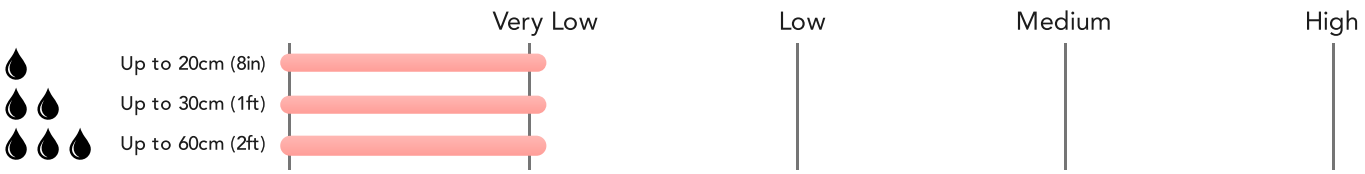

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

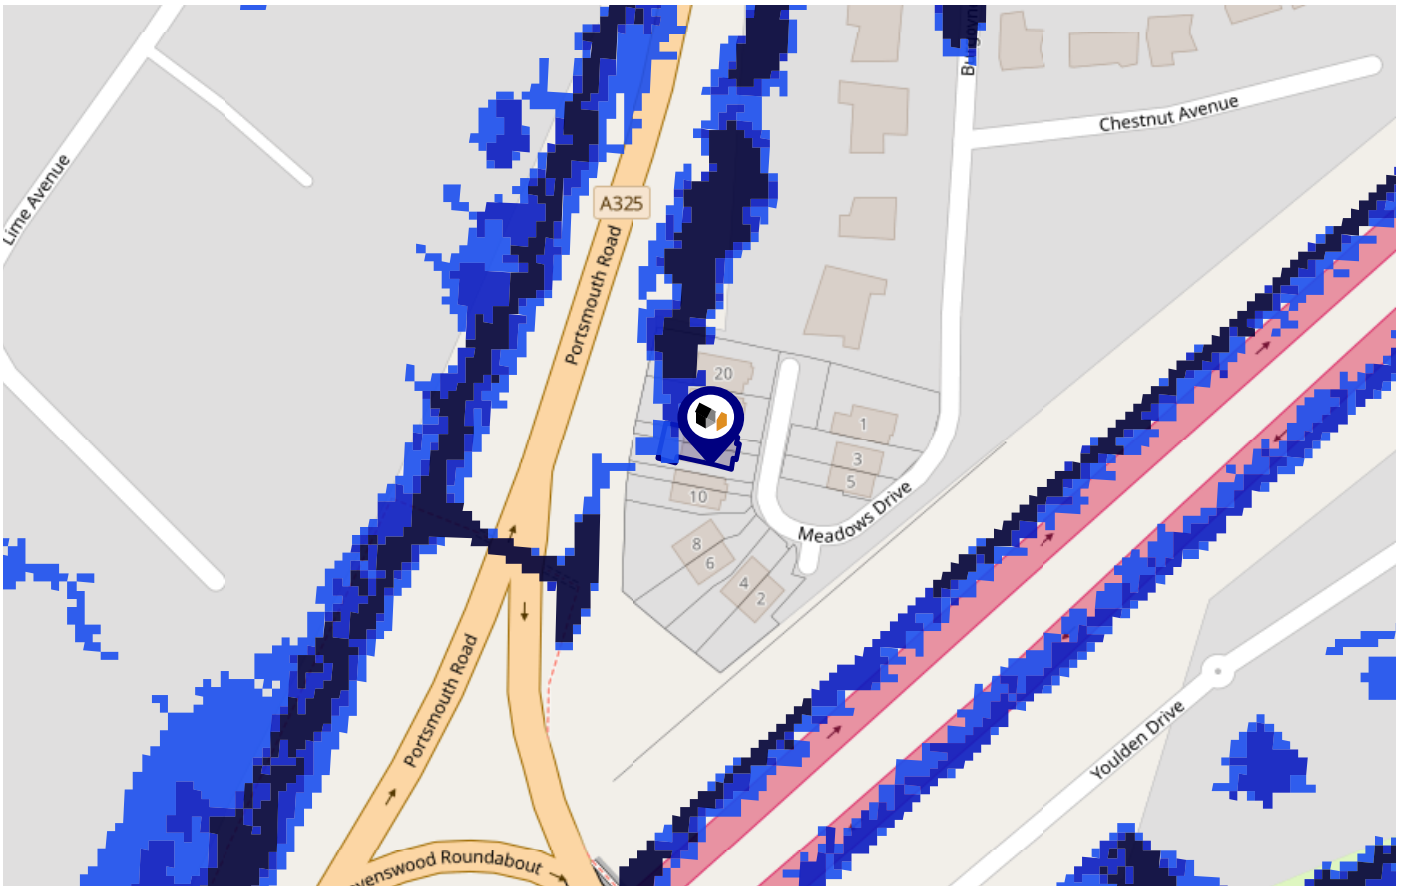

- **High Risk -** an area which has a chance of flooding of greater than **1 in 30 (3.3%)** in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than **1 in 100 (1.0%)** in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than **1 in 1000 (0.1%)** in any one year.
- **Very Low Risk -** an area in which the risk is below **1 in 1000 (0.1%)** in any one year.

Chance of flooding to the following depths at this property:

Flood Risk
Surface Water - Climate Change

This map shows the future chance of flooding **between 2040 and 2060** where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

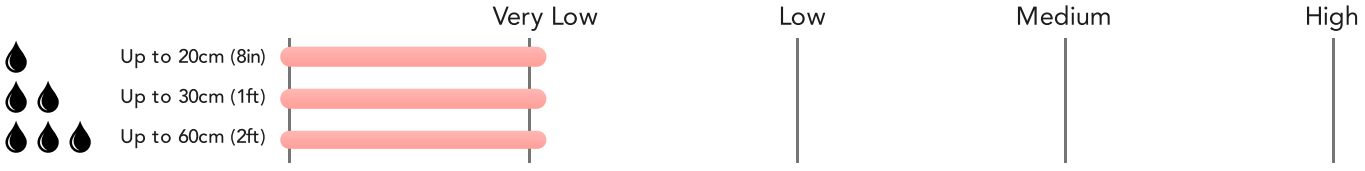

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- Power Pylons
- Communication Masts

Environment
Radon Gas

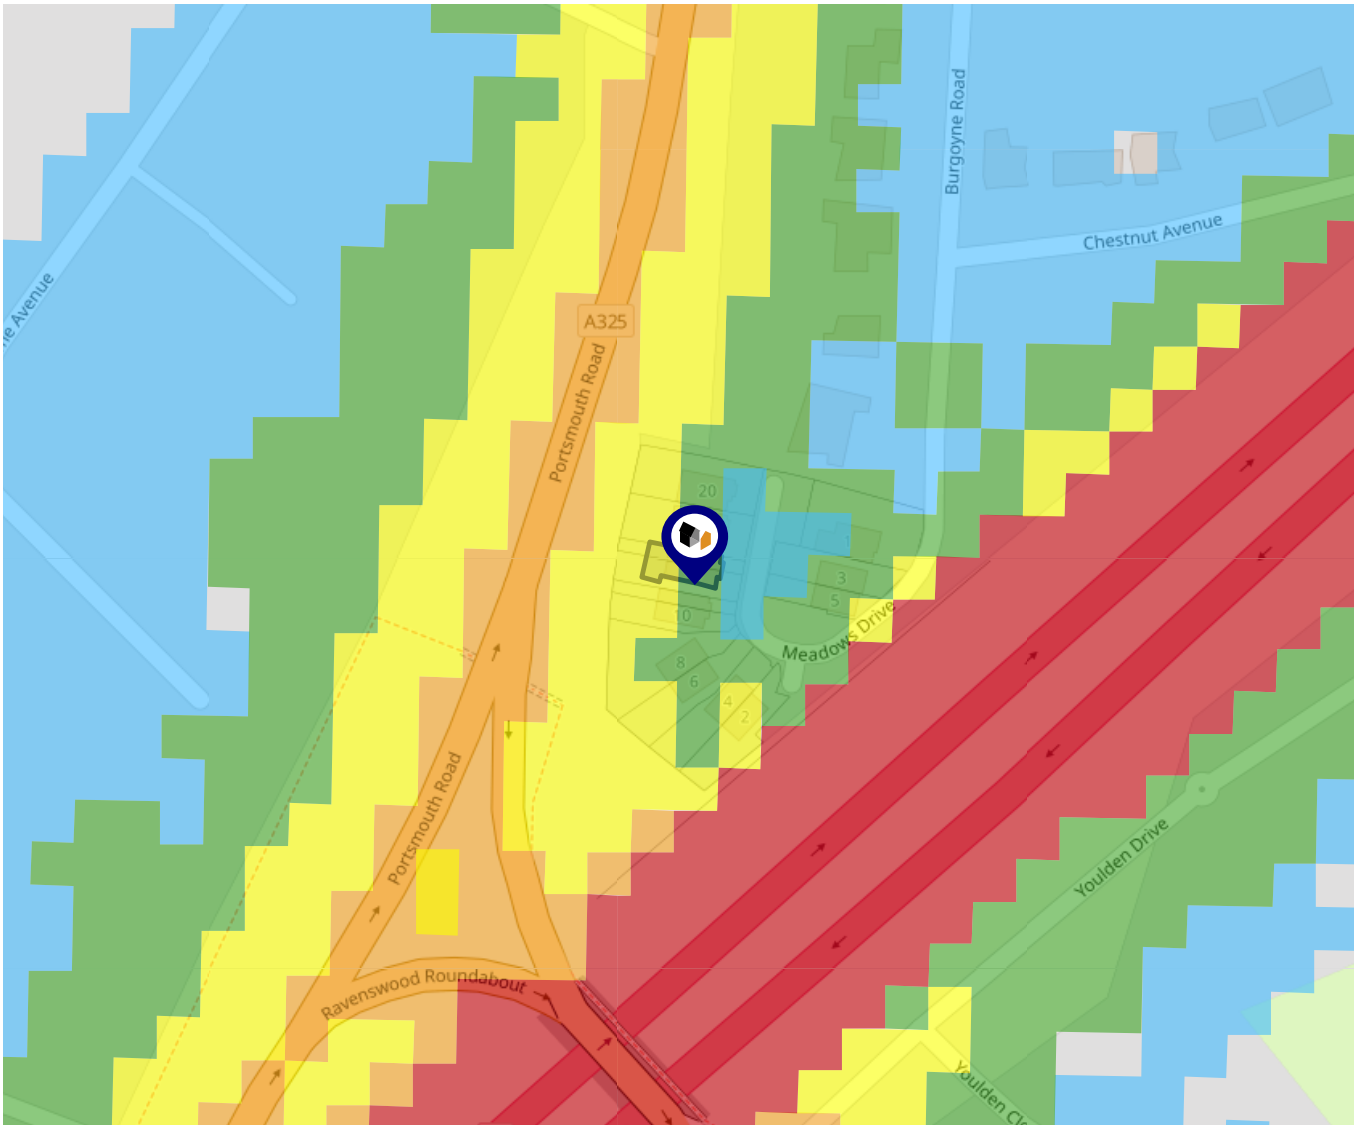

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

Local Area
Road Noise

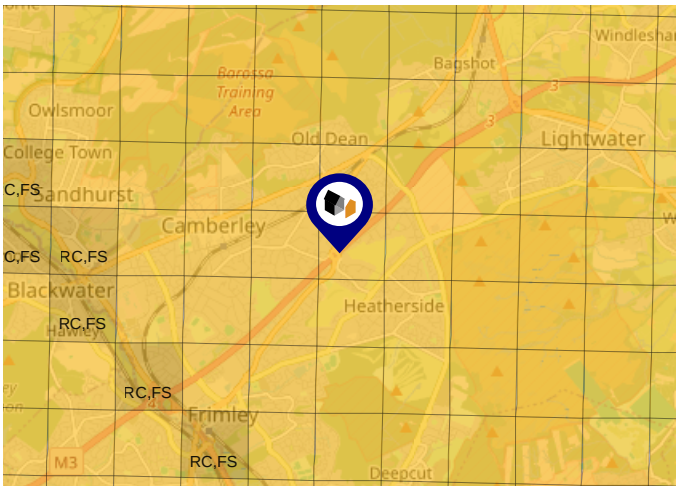

The data indicates the level of noise according to strategic noise sources across all traffic routes. This indicates a 25 house annual average noise level with separate weightings for the evening and the night periods.

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB

Avocado Property

We are proud to be different, we want to create a legacy as the business that positively disrupted the industry and challenged the estate agent status quo.

Our clients all get direct access to business partners who live locally and are part of their local community. We work with local businesses to help promote their companies free of charge and we give back to teachers, nurses and armed forces servicemen/women.

We are passionate about changing the industry, passionate about helping people move on to the next chapter in their lives and passionate about property.

Avocado Property
Testimonials

Testimonial 1

Stephen and Chris were fantastic throughout the whole process from the initial valuation through to completion.

They were highly professional and realistic in understanding the market for our home which led to a smooth sale process. They were supportive and communicated well at every stage.

Using their social media expertise and more traditional sales techniques provides the seller with comprehensive access to potential buyers.

Testimonial 2

What a refreshing change for an estate agent. After experiencing others Stephen and Chris are a breath of fresh air. Reliable, efficient and excellent communication. Can't rate them highly enough. Thank you both.

Testimonial 3

This is the 2nd time I have used Chris and Stephen from Avocado, I have to say on both counts the service has been excellent from start to finish. Kept fully up to date with the progression of the sale, and are contactable pretty much all the time, and get back to you very promptly.

On both occasions the house sold very quickly. I would highly recommend them both.

A very happy customer!!!
