The accommodation is arranged over two levels; the ground floor opens with a welcoming formal hall that leads to a series of exceptional living spaces, including the super dual-aspect sitting room, open-plan kitchen / breakfast room, and large separate dining room / garden room. A delightful garden room provides a seamless connection to the grounds. A dedicated study provides the optimum space for those who work from home, or in some form of hybrid arrangement, with a cloakroom and utility room, completing ground floor.

To the first floor are five double bedrooms, three of which benefit from their own en-suite, including the principal bedroom, which is a large dual-aspect bedroom, with stunning en-suite complete with stand alone bathtub and dressing room. In addition to the three en-suites, there is a family bathroom to compliment the remaining two bedrooms, expertly designed for a busy household.

Externally the property enjoys gardens on three sides, with both lawned and patio seating areas, along with a swimming pool, offering both practicality and excellent outdoor living space. To the front is an integral double garage with electric roller door, and large driveway for multiple vehicles.

Further benefits include:

Eco-conscious improvements have been made by the current owners, including an air source heat pump and a 13.5kW Tesla Powerwall 3 (Negotiable), both of which enhance energy efficiency and reduce overall running costs. The system also provides future-ready potential for solar panel integration and the opportunity for energy resale back to the grid.
