THE PROPERTY

The Loft is a charming end of terrace period cottage occupying a peaceful and picturesque setting in a small no-through lane. It was understood to have been converted from former stables in circa 1984 and is of solid stone under a slate roof.

The well presented accommodation offers many attractive character features including exposed stone walls, Kardaman flooring, solid pine cottage doors and, on the first floor, wood panelled vaulted ceilings with exposed beams. Upgraded Night storage heating is installed.

There is a good sized living/dining room with wood burner, well fitted kitchen with solid pine painted units, modern ground floor shower room and on the first floor two bedrooms, one with a shower and wash basin.

There is the benefit of parking for one small car or a small area of outside space to the front of the cottage.

OUTSIDE

The cottage is clad in Wisteria and roses.

To the front of the property (in front of the window) there is a paved area with potential parking for one small car.

SITUATION

West Milton is one of West Dorset's most sought after villages, set in a lightly wooded valley. The village is made up, for the most part, of stone houses and cottages of a type for which the area is well known. It is extremely peaceful, being surrounded by beautiful countryside within an area of outstanding natural beauty (AONB). The nearby villages of Powerstock and Mangerton are within about one mile, both have excellent public houses.

The larger historic towns of Bridport and Beaminster are within about 3 miles and 5 miles respectively, as is the beautiful World Heritage coastline, known as the Jurassic Coast, at West Bay.

SERVICES

Mains electricity, water and drainage. Electric heating.

Broadband - Standard up to 14Mbps and Superfast up to 80Mbps.

Mobile phone service providers available are EE, Three, O2 and Vodafone for voice and data services outside.

HOLIDAY LETTING/LONG TERM LETTING HISTORY

The Loft has been very successfully offered for holiday lettings and then long term lets during the last 30 years or so. There is, therefore, excellent potential to generate good revenue.
