EXTERNALLY

GARDEN

The front of the house is open plan. A large block paved driveway in front of the double garage provides off road parking for several cars. The block paving continues with a most attractive pathway leading from the driveway to the front door. The remainder of the front garden is laid to a neat shaped lawn with attractive flower borders and a low level hedging lining the paved path to the front door. The rear garden is fully enclosed and a really lovely feature of this most impressive property and is split into several different sections. A gate gains access to the paved patio area directly outside the back door which also houses a large storage shed. A second gate and low level fence separates the main garden. This is laid to lawn with well stocked shrub borders and attractive raised flower beds. There is also a paved patio seating area. A trellis fence and a further gate gains access to a very good sized gravelled area offering versatility and flexibility for play/entertainment areas which could easily be incorporated into the main garden if required. Included in the garden are several outside lights, a garden tap and an external power supply.
