Positioned within the prestigious Haymills Estate, this double fronted detached house was completely reconstructed fifteen years ago to create a home of exceptional quality. The result is a property that perfectly combines modern design with timeless character, offering more than three thousand three hundred square feet of versatile accommodation suited to contemporary family life.

The ground floor is arranged around a magnificent open plan living space where natural light floods through from front to back. This impressive room provides a seamless setting for day to day living and entertaining, with the added advantage of a discreet passenger lift that serves every level. To the rear, a sleek and well equipped kitchen overlooks the south facing garden, a quiet and private space ideal for both relaxing and social occasions.

The first floor is home to three generous bedrooms, each with its own en suite bathroom. The principal bedroom enjoys a peaceful outlook across the garden and features bespoke fitted storage.

The top floor offers two further double bedrooms together with a stylish family bathroom, creating the perfect arrangement for guests, older children or those in need of a private home office or creative studio.

With an internal garage, a beautifully maintained garden and excellent connections into central London, this is a rare opportunity to secure a long term family residence within one of Ealing's most desirable neighbourhoods.
