Planning Permission Approved for 8 bed HMO - App No: 80819

An impressive and spacious Victorian townhouse, perfect for a large family or multi-generational living. With potential to be split into multiple dwellings (subject to planning consent), this versatile property offers substantial accommodation across four floors.

Description

A substantial Victorian residence brimming with potential, ideal for refurbishment, reconfiguration, or income generation.

This imposing period townhouse combines classic Victorian architecture with generous proportions across four floors, offering a rare opportunity for buyers looking to create a bespoke multi-generational home, investment property, or both. While retaining charming features such as painted Marland brick elevations, decorative coving, original fireplaces, and a slate roof, the property would now benefit from modernisation throughout—providing a blank canvas for those with vision.

The ground floor comprises an inviting entrance hall, a bright bay-fronted sitting room, a kitchen/diner with fitted appliances, two bedrooms, and a shower room. This level could easily be refurbished to form a self-contained flat or independent living space—ideal for elderly relatives or tenants.

The first floor offers further scope with a second kitchen/diner, a sitting room, a large double bedroom, and a shower room—lending itself perfectly to separation for dual living or letting potential. The second floor features four spacious bedrooms, including two intercommunicating rooms, all of which could be modernised and reconfigured to suit a variety of living arrangements.

Accessed from the gated rear courtyard, the lower ground floor currently serves as a generous storage and utility area, but has excellent potential for conversion—whether as additional living accommodation, communal spaces, or ancillary income-generating units, subject to the necessary consents.

Externally, the property includes a small courtyard to the front and an enclosed rear courtyard garden with gated off-street parking—an increasingly rare and valuable asset.

With two separate service supplies already in place, this property lends itself to division into multiple self-contained units or conversion into an 8-bedroom HMO (House in Multiple Occupation), subject to the relevant permissions. The existing layout—with multiple reception rooms, kitchens, and bathrooms—presents a strong foundation for either an investment venture or a flexible multi-generational lifestyle.

Occupying a prime position, this grand yet adaptable home is perfectly suited to those seeking a renovation project with scope to enhance, extend or reconfigure. Whether your vision involves updating the interiors for family living, creating rental

income, or both—this is a property packed with promise.

Ground Floor

Entrance lobby with an internal door leading to a hallway and another lobby. There are doors to an inner hall with stairs to the first floor. Under the stairs is a cupboard with gas and electric supplies for the upper floors. The sitting room has a bay window at the front, a fireplace, decorative coving, and a central ceiling rose. The kitchen/dining room has matching wall and base units with a high gloss finish, roll-top work surfaces, a stainless steel sink with mixer taps, a tiled splashback, a built-in electric fan oven, a four-burner gas hob, and a stainless steel extractor hood. There's also a gas fire and a door to the inner lobby, which leads to a side door opening to the rear courtyard garden. There are two bedrooms, one on the side and one at the back. The shower room has a frosted window at the back, a tiled shower, a dual-flush toilet, and a pedestal sink with mixer taps.
