Summary Continued

The upstairs family shower room again is a modern suite and there is gas central heating throughout via a regularly serviced boiler. There are UPVC double glazed windows and doors plus adjacent to the property is a brick built garage which comes supplied with power and light and has a personal door leading direct into the rear garden. There is also access to a spacious eaves loft storage area. In front of the garage is driveway parking plus there are four guest spaces in the development. The current owners replaced all floor coverings when they moved in.

Offered as a freehold property there is a managing agent for the properties with the opportunity for all residents to be involved. This comes with a very reasonable annual service charge of £375 for 2026. This covers the maintenance of communal areas, gardens and also the cost of the external lighting.

Cumberland Mews is in the most convenient location within the Woodbridge town centre area. Situated within the conservation area there is a personal private access via a lockable gate from Cumberland Mews leading direct through to the town centre only two minutes away and the station itself and riverfront area are only a few minutes walk away.

Front Garden

Front garden which is currently open plan but shortly to be enclosed by a low fencing. The garden is full of spring bulbs and established shrubs with a dwarf tree. A block paved driveway provides off-road parking for one vehicle and this in turn leads to a garage, there is an outside cupboard which contains the gas and electric meters and an outside tap which is currently disconnected. This is part of the shared community and is maintained by gardeners included in the service charge

Entry via a wood and glass front door, stairs rising to the first floor, understairs storage area and a radiator.

Via the landing the loft space is part glazed with roof

light window, good sized loft access hatch which comes down to reveal a sturdy wooden ladder and is partially boarded and could provide potential for a conversion to a third bedroom subject to necessary regulations and planning permission. The current seller previously consulted with an architect concerning this alteration, draft drawings were produced by Moss Design Architects back in 2017 for the conversion of the loft space to a third bedroom being accessed by new stairs installed at the end of the back bedroom. The current owners did not pursue this but believe there is every possibility this could be carried forward by a new purchaser if required.
