The property offers well-proportioned accommodation arranged over

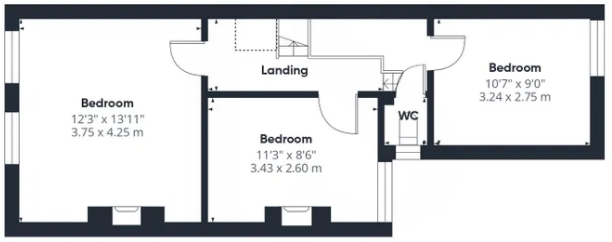

Jacobs Steel are delighted to present this attractive Victorian home, ideally positioned in the heart of Worthing, nestled on a picturesque one-way street adorned with elegant pastel-coloured period properties. The sought-after location ensures everything is within easy reach, from the town's bustling shops, cafes, and highly regarded restaurants, to a variety of leisure facilities, seafront attractions, and the mainline railway station offering excellent commuter links. The property offers well-proportioned accommodation arranged over three levels, retaining many of the characteristics associated with a Victorian home. The accommodation comprises two reception rooms, a kitchen with access to the rear garden, a ground floor bathroom, three generous double bedrooms, a separate WC and a partially converted loft room, providing useful additional space and potential for further improvement, subject to any necessary permissions.

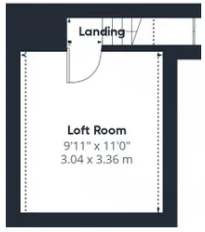

Internal Entering the property, the ground floor provides a good sense of the space and proportions typical of a Victorian home, with high ceilings, well-proportioned rooms and a layout that offers plenty of flexibility for modern family life. The original two reception rooms have been opened up to create one generous open-plan living space, providing an excellent area for both relaxing and entertaining. The front section benefits from the property's attractive bay frontage, allowing plenty of natural light into the room, while the overall proportions create a versatile space which could easily accommodate distinct living and dining areas. The original layout remains evident in the character and proportions of the room, while the opening between the two areas gives the ground floor a more open and sociable feel. Towards the rear of the property, the kitchen is fitted with a range of wooden wall and floor-mounted units, providing a good amount of storage and useful worktop space. The kitchen has a practical layout and a more traditional feel, with plenty of opportunity for a new owner to update and personalise the space over time if desired. A door leads directly from the kitchen into the rear garden, providing convenient access outside and creating a practical connection between the kitchen and garden. The ground floor bathroom is positioned to the rear of the property and is accessed from the kitchen. It is fitted with a full white suite comprising a bath, wash basin and WC, providing useful facilities on the ground floor. Moving upstairs, the first floor is particularly impressive in terms of bedroom proportions, with three genuinely good-sized double bedrooms. The principal bedroom spans the full width of the property, creating a substantial and versatile room with plenty of space for a large bed, wardrobes and additional furniture. The remaining two bedrooms are also generously proportioned and offer considerable flexibility, whether used for children, guests, home working or additional personal space. A separate WC is conveniently positioned on the first floor, serving the three bedrooms. From the landing, a fixed staircase continues to the partially converted loft room, which provides a useful additional area and offers scope for further improvement. The space could potentially be incorporated into the main accommodation to create further usable living space, subject to the necessary planning permissions, building regulations and any other relevant consents.
