At first floor level there is a galleried bathroom and further bedroom. The property benefits from double glazed units in the original window frames and a gas fired central heating system has been recently installed.

Outside, particular mention must be made of the delightful garden/guest suite which could be used for a number of purposes.

Throstles Nest stands in delightful landscaped gardens comprising of a lawn, various patios areas, one of which enjoys a covered enclosure. The whole of the gardens are fully enclosed with stone walling and split hazel fencing. A new Klargestar septic tank with treatment plant has been installed together with a specialist land drainage system. To the front of the property electric gates allow access to a sweeping driveway allowing parking for several motor vehicles.

We would strongly recommend an internal inspection of this delightful unique property in order to fully appreciate the fine merits it has to offer.
