## Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

### Testimonial 1

We have gone through the process of buying our first home with Lawler & Co, and they have been excellent. Chloe has pushed to ensure we are in before Christmas, and has been excellent on keeping us updated on the whole chain.

Thank you for your support during this process!

### Testimonial 2

We have just used the Marple branch to sell our home and the service from start to finish has been 10/10. The whole team couldn't do enough for us, and took away that extra stress of moving home. We have used other local agents before and the service was no where near as good as Lawler and co.

Thank you so much!

### Testimonial 3

Initially dealt with the viewing of my new house through the Hyde Office, I dealt with both Imogen and Stacey who were very friendly and professional. During the sales process I dealt with Chloe in the Marple office who was great, she kept me up to date at all times, chased when necessary and was on hand to answer all queries. Thanks Chloe and the rest of the team, we have now moved in and our both really happy in our new home

### Testimonial 4

Lawler and co were amazing from the minute we walked into the Marple office, from fitting in a viewing last minute and giving us advice throughout the process they made the purchase of our first house as stress free as possible.
