TOWN & VILLAGE HOMES

TRADITIONAL GARDEN CITY STYLE AIR SOURCE HEAT PUMP OUTSTANDING 0.29 ACRE PLOT

THE PROPERTY

This detached house boasts many of the features which make the Garden City style so attractive, including the bay to the side of the sitting room and the veranda to the rear. The ground floor also provides a separate dining or family room, a kitchen/breakfast room and a cloakroom/WC. There are three good bedrooms on the first floor, plus the bathroom.

The house offers considerable scope to extend, if required and subject to any necessary planning consents and benefits from double-glazed windows, some with secondary triple-glazing. Central heating and hot water is supplied by an air source heat pump and there is a wood-burning stove in the sitting room.

THE OUTSIDE

The house stands in a splendid plot extending to over a quarter of an acre (0.29 acre), measuring approximately 179' by 100' max (54.5m x 30.5m max) overall. Screened from the road by a tall hedge, the front garden is laid to lawn. The concrete driveway provides good off-street parking and leads via double gates to the detached garage to the rear.

A gate to the other side of the house also leads to the south facing rear garden, which is some 105' (32m) in length and widens steadily towards the rear. The garden is laid to lawns with paved patio, fruit trees, ornamental shrubs and trees, soft fruit and a truly impressive vegetable plot. Aluminium frame greenhouse, timber garden shed and open-fronted garden store.

THE LOCATION

Norton Road is a highly regarded residential road on the north-east side of Letchworth. No 67 is within a mile and a quarter of the town centre and the mainline railway station. Letchworth Garden City is on the Cambridge to London mainline with the fastest service to London King's Cross taking just 29 minutes and Cambridge 27 minutes away in the other direction. The centre of Norton, one of the three ancient villages absorbed by the Garden City, is just a third of a mile away and provides a pub, the highly regarded St Nicholas Primary School and the historic parish church. Junction 9 on the A1 (M) is 2.6 miles away by car, as is Junction 10.

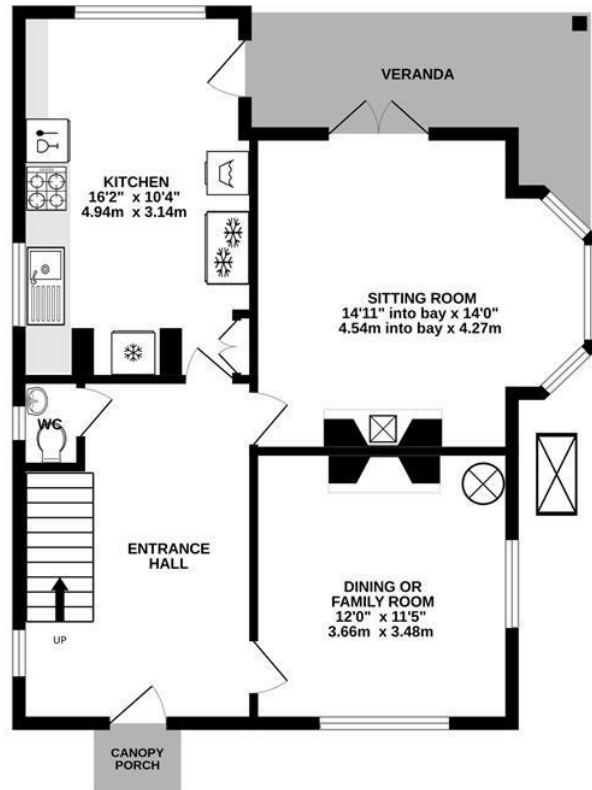

Designed in the early 20th Century to combine the benefits of town and country, Letchworth Garden City was the world's first example of this concept and succeeds to this day in achieving its aim. The town provides excellent schools, shops, leisure facilities and green open spaces, the most impressive of which, the 63-acre Norton Common, is only half a mile away.

RESTRICTIVE COVENANTS

A restrictive covenant is a clause in an agreement that restricts, limits, prohibits, or restricts how owners can use a property. These could include: property use (e.g., business and rental use), the number and type of vehicles allowed on the property, fence height and type, removal of trees, paint colours for the front door or garage, installation of satellite dishes and even types of animals allowed at the property. For more information, please ask the agent.

EASEMENTS

Having an easement on your property means that a third party (an individual or a utility company for example) has a right to use your property for a particular purpose. This could be passing by foot or with vehicles over your property, or a right to pass service media for utilities on, over or under your property. An easement could also allow a neighbour to access your property in order to carry out repairs to their own property. For more information, please ask the agent.

FLOODING

Properties can be at risk of flooding and it is important for you to check if the property has been flooded in the last 5 years, what flood defences are in place and source of any flooding. For more information, please ask the agent.

CONSTRUCTION

Solid brick, insulated internally, under a pitched tiled roof. Please note that the property has been the subject of some structural movement, which has been carefully monitored and which was attributed to the roots of trees nearby. Appropriate remedial action had been taken, including the removal of some trees and the insertion of a root barrier to provide protection from the nearby oak trees. A Certificate of Structural Adequacy has been issued.
