Details

An Architectural Landmark Above Bequia Set high above Friendship Heights in Bequia's exclusive Cloud 9, Mangwana is one of the island's most striking private residences – a bold, highly engineered villa that redefines contemporary Caribbean architecture. Dramatic yet serene, expansive yet intimate, this award-shortlisted estate is a rare fusion of design pedigree, environmental intelligence, and breathtaking Grenadine views. Visionary Design & Award Recognition Designed by British architect Jake Edgley, who trained under Sir Norman Foster, Mangwana represents a new generation of tropical architecture – one that responds intelligently to climate, light, and landscape.

Villa Details
