# Maps Coal Mining

This map displays nearby coal mine entrances and their classifications.

## Mine Entry

- ✖ Adit
- ✖ Gutter Pit
- ✖ Shaft

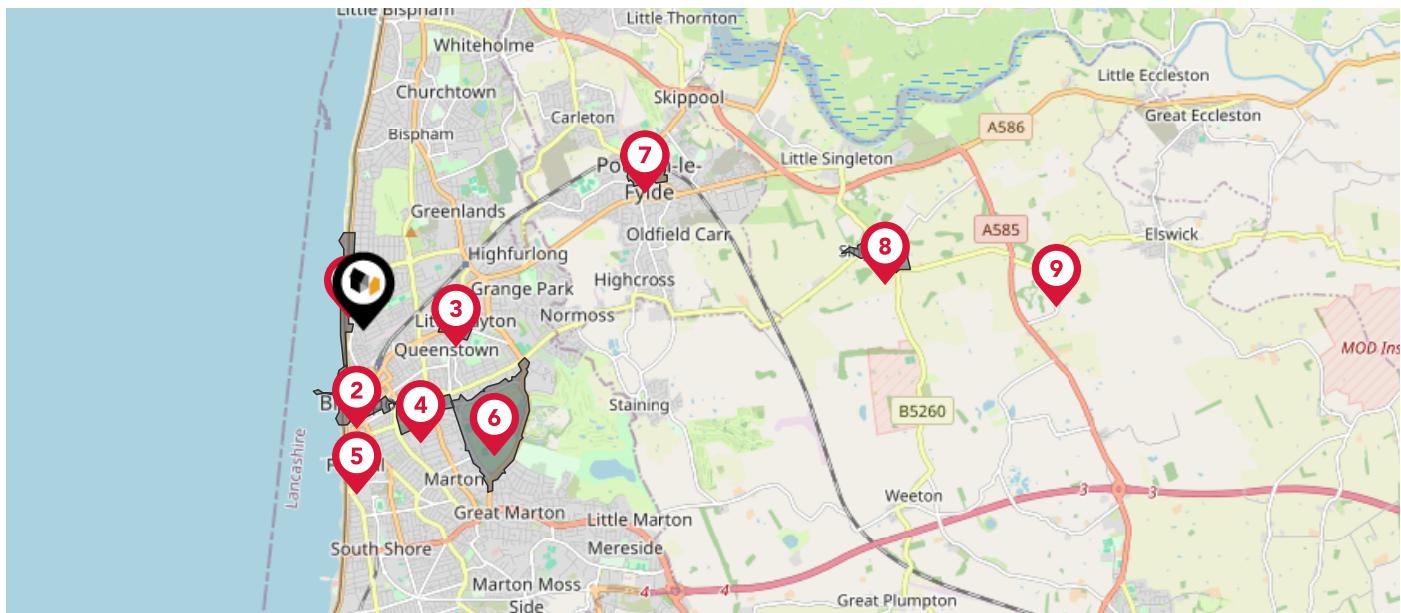

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

# Maps

## Conservation Areas

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

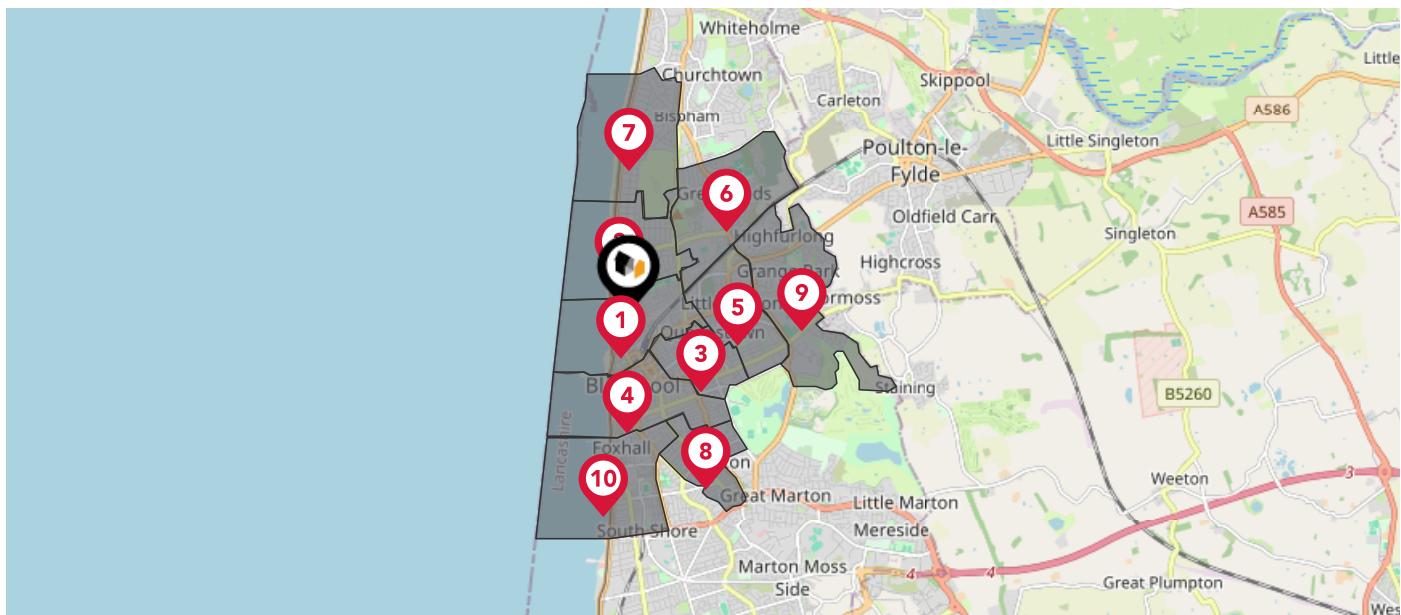

### Nearby Conservation Areas

- 1 North Promenade
- 2 Town Centre
- 3 Layton
- 4 Raikes
- 5 Foxhall
- 6 Stanley Park
- 7 Poulton-le-Fylde
- 8 Singleton (Fylde)
- 9 Thistleton

# Maps

## Council Wards

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

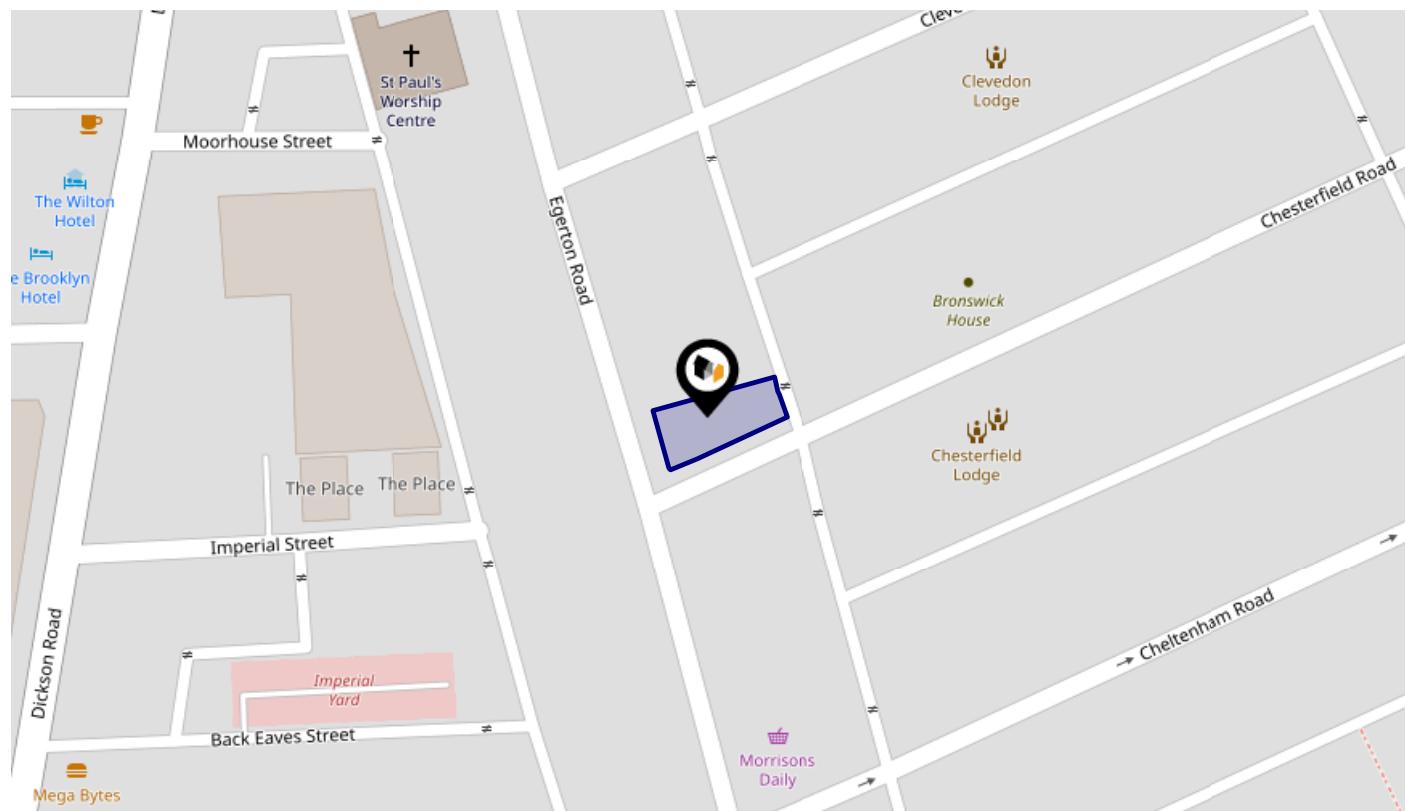

### Nearby Council Wards

- 1 Claremont Ward
- 2 Warbreck Ward
- 3 Brunswick Ward
- 4 Talbot Ward
- 5 Layton Ward
- 6 Greenlands Ward
- 7 Bispham Ward
- 8 Tyldesley Ward
- 9 Park Ward
- 10 Bloomfield Ward

# Maps

## Rail Noise

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

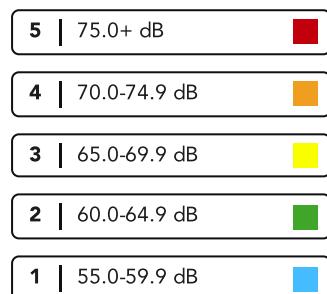

### Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

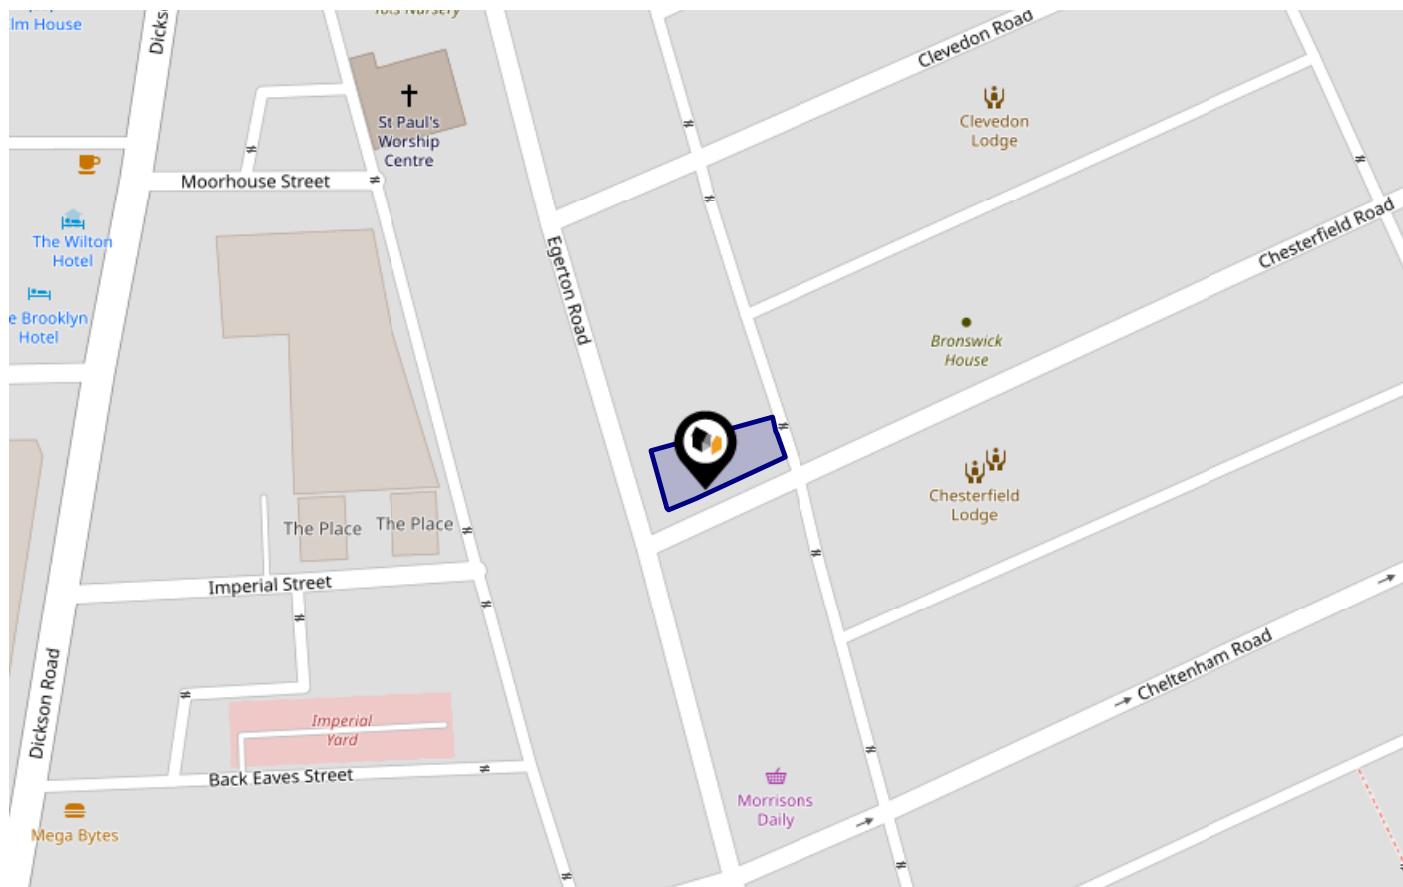

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

# Flood Risk

## Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

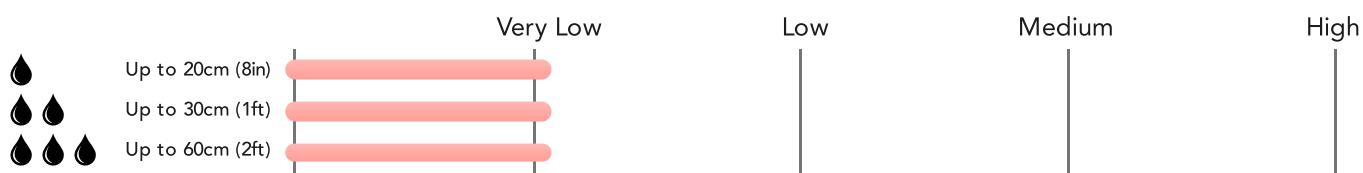

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

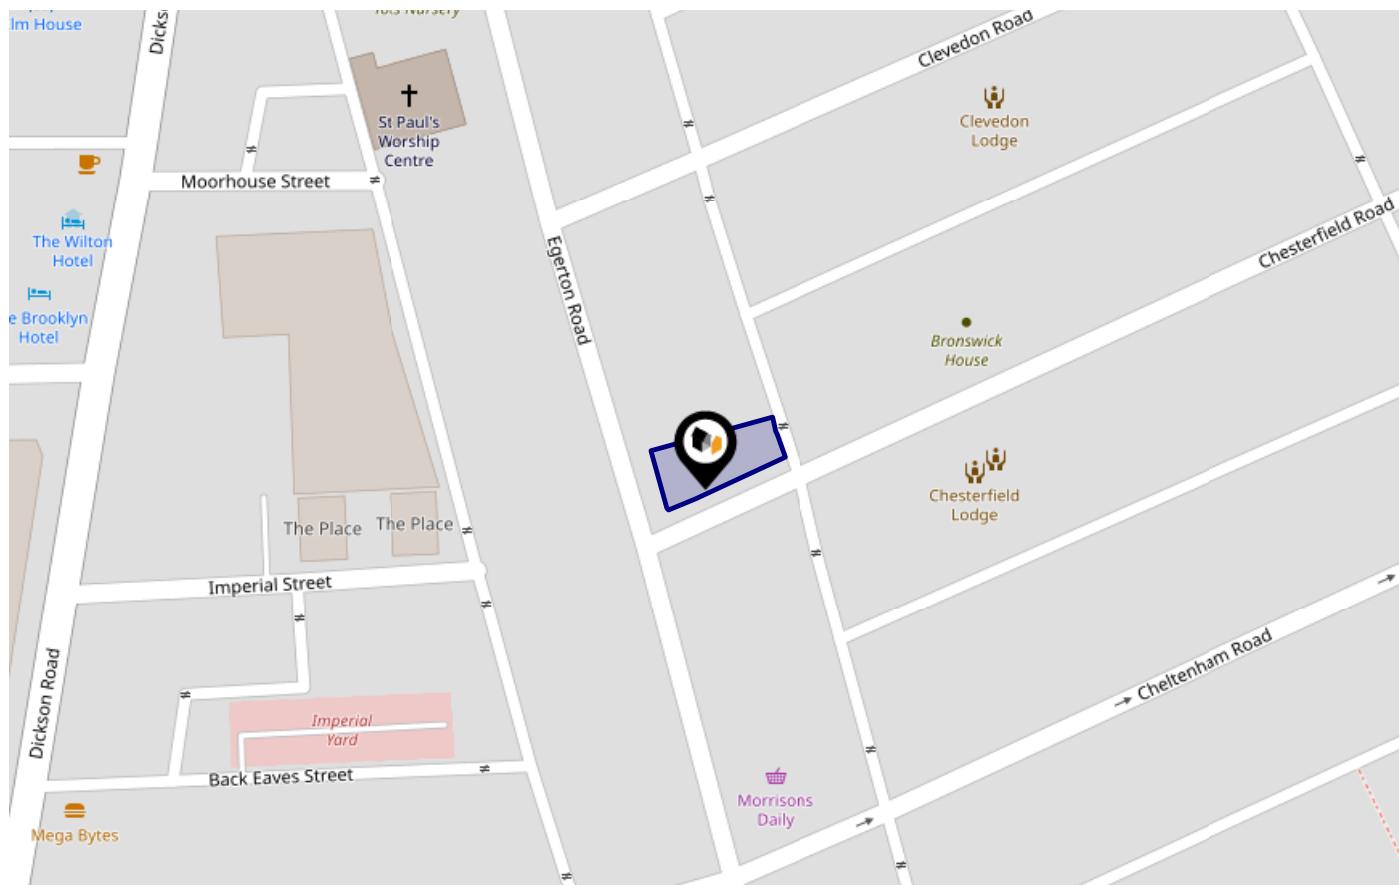

Chance of flooding to the following depths at this property:

# Flood Risk

## Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

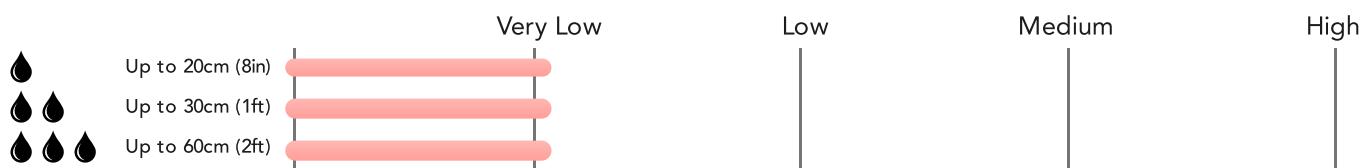

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- █ **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- █ **Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- █ **Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- █ **Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

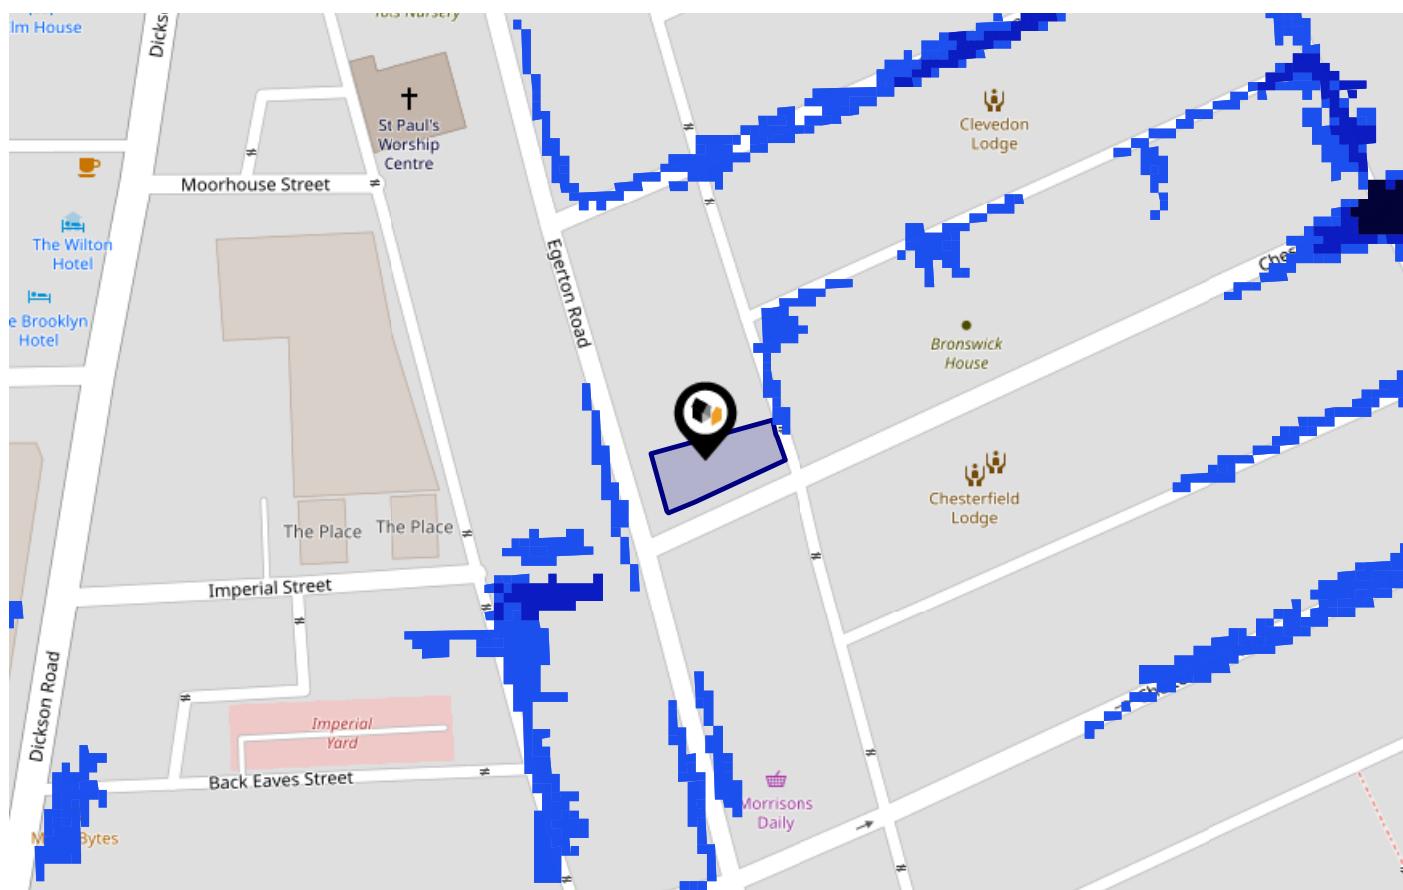

Chance of flooding to the following depths at this property:

# Flood Risk

## Surface Water - Flood Risk

This map shows the chance of flooding where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas.

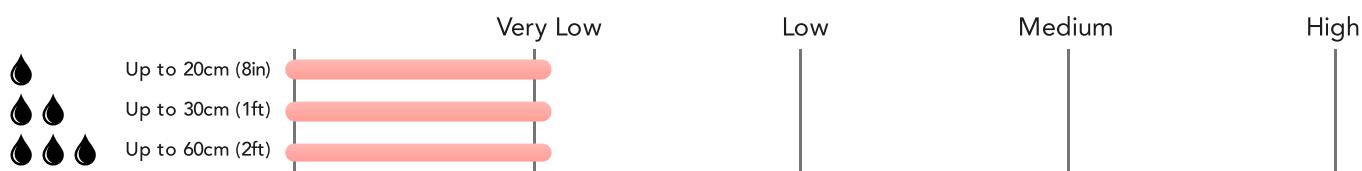

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.

- Power Pylons
- Communication Masts

### What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m<sup>3</sup>).

# Local Area Road Noise

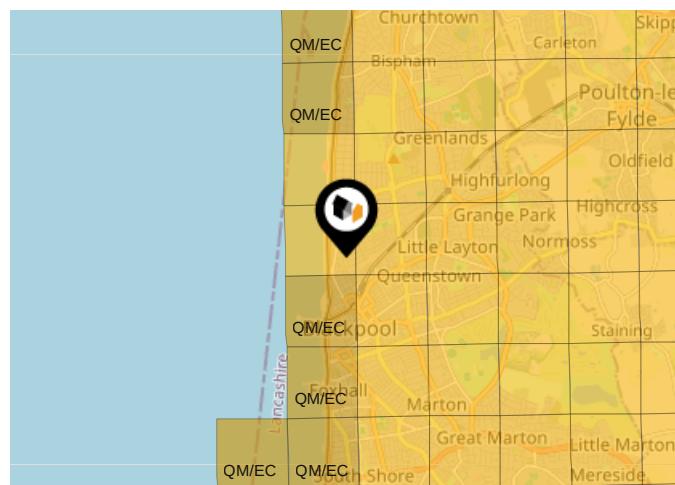

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- █ 75.0+ dB
- █ 70.0-74.9 dB
- █ 65.0-69.9 dB
- █ 60.0-64.9 dB
- █ 55.0-59.9 dB

### Martin & Co

With our exceptional local knowledge, you'll receive the very highest standards of service at all times. If you're looking to buy or invest in property, the team at Martin & Co Fylde Coast will guide you through the whole process from start to finish.

### Testimonial 1

Great estate agents and probably the best in the area by far. Hayley, our property manager, was so helpful as we were relocating into the area and nothing has been too much trouble. Really happy with the process start to finish and Hayley made our move stress free. Thank you to everyone involved. Would highly recommend especially if you are relocating from a far distance!

### Testimonial 2

Caitlin has been brilliant letting my properties quickly & efficiently. She's taken all of the hassle away! She responds so quickly when I have questions which I really appreciate.

### Testimonial 3

When purchasing my first investment property I was initially very apprehensive. I had honest advice along the way and I felt at ease dealing with Hamza who was extremely efficient. The whole process was smooth with Martin&Co and I was kept informed throughout. I highly recommend!

### Testimonial 4

Very supportive, and helpful. Caitlin really went above and beyond to help me out, she was always there when I needed her! (Even on her days off!) highly recommend. Thank you for all your help Caitlin!
