109, Neville Street, Platt Bridge, WN2 5BN

Large terrace house with substantial

- Larger than most terrace homes in area
- Triple glazed windows to front
- Gas central heating
- Large detached garage to rear
- Comprehensive structural improvements
- Double glazed windows to rear
- Two double beds with potential for 3
- 1346 SQ.FT. in total / No chain

Significantly larger than many comparable terraced homes in the area, this attractive bay-fronted property extends to approximately 1,030 square feet of internal living space, offering generous proportions and excellent potential for further enhancement.

The house benefited from a comprehensive programme of upgrading around 1984/85, which included a new roof, repointing works and a full rewire, providing buyers with reassurance regarding the property's structural integrity. More recently, triple-glazed windows have been installed to the front elevation, enhancing both energy efficiency and sound insulation, while the rear elevation is double glazed. Warmed by gas central heating, the home offers a solid foundation for those looking to personalise and modernise to their own taste.

Externally, there is an enclosed rear yard which leads to a substantial detached garage to the rear — a particularly valuable feature for a property of this style, offering secure parking, storage or potential workshop space. Overall, this is a spacious and structurally sound home with key improvements already undertaken, presenting an excellent opportunity for buyers seeking space, character and scope to add further value.

TOTAL FLOOR AREA : 1346 sq.ft. (125.1 sq.m.) approx.

Whilst every attempt has been made to ensure the accuracy of the floorplan contained here, measurements of doors, windows, rooms and any other items are approximate and no responsibility is taken for any error, omission or mis-statement. This plan is for illustrative purposes only and should be used as such by any prospective purchaser. The services, systems and appliances shown have not been tested and no guarantee as to their operability or efficiency can be given.
